**Activities Organized in the Department**

**Competitive Examination Guidance (NET, SET)**

The career in library and information science is in demand because the libraries are considered as repositories of knowledge and information and are indispensable in the information age. For making Successful career in Library and Information science with post-graduation NET, SET exam have the extraordinary importance. For pay attention of students on this exams dept. organized NET SET exam preparation guidance session. Because of the merging of information technology with library science, the nature of libraries and the scope of their services have radically changed. The job involves wide range of reading and processing of the information content through cataloging, classification and indexing, storing documents and retrieving the required information and so on. Out of lakhs of students who appear every year, only thousands clear NET. To equip these aspirants with the right methodology to study and crack these exams was the motive behind organizing 'Guidance workshops'. Today there are many aspirants who are trying to obtain the NET/SET qualifications necessary for being appointed as an Assistant Professor in colleges. Such aspirants require proper guidance. This sessions provide a platform where the aspirants can get their doubts and queries cleared, to ensure that participants benefit from the guidance of the luminaries associated with the NET/SET examination process.

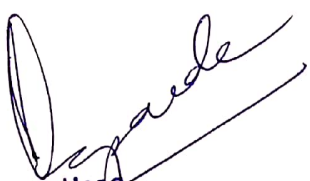

**Career Counselling**

In our Library and Information Science dept. each year organize the Career counselling Programme for MLISc 4<sup>th</sup> Semester students and also for Ph.D. Research Scholars, Career counselling plays a pivotal role in shaping the future of students. With an ever-evolving job market and an abundance of career choices, students often find themselves overwhelmed and uncertain about their career paths. Seeking professional guidance through career counselling can provide valuable insights, clarity, and direction. In this Session Students ask the various

questions about their future opportunities in Library Profession, Experts can share their valuable opinion about their Successful career and guide the student with various opportunities available in our field and also share different requirements presents in this field.

Main purpose of dept. for organize career counselling sessions is providing guidance, support, and resources, career counsellors empower students to explore their interests, develop their skills, and navigate the complex world of careers successfully. Experts share their opinion like the library and information science is filled with professionals passionate about making a positive change in the world around them. Load up with technical services courses. In the past that meant cataloging, indexing, and acquisitions courses. Now, you want to take a lot of web authoring tools classes, computer language and computer systems courses, and database classes. Also look into any classes with a legal or commercial emphasis such as copyright compliance, negotiating with vendors, the publishing industry, etc. They help students identify internships, part-time jobs, or volunteering opportunities that enhance their skills and boost their chances of securing desirable positions in the future. From this counselling students can embark on a journey of self-discovery, growth, and fulfillment, ultimately leading them to a successful and rewarding career.
