

## One day orientation programme for college programme officers

On 26/8/2019, Department organized one day orientation programme for college programme officers. This programme was inaugurated by Dr. Sarjero Thombre, Director, Gopinathrao Munde National Rural development & Research Institute, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad. Prof. Pravin Wakte, Pro-vice-chancellor presided over the function Dr. Sanjay Moon, Head and Director was present on the occasion.

In the beginning Dr. Moon felicitated to Dr. Thombare and Dr. Wakte. He also delivered an introductory speech and explained the intention of one day orientation programme.

Subsequent to this Dr. Sarjero Thombare delivered an inaugural speech he delivered lecture on 'Educational problems of the Marathwada and solution'. He said that educational problems of the Marathwada are common. So collective solution is essential. Fraternity produces kindness. We must introspect ourselves. Our regional problems are not different than the national problems. All the world a stage and we all are actors. The problems of the primary education in Marathwada, are very serious problems. Teachers should have to play the role of mothers for the

children. Teacher develops the nation. But the process of teacher making is wrong. We must stop the corruption among the educational institutions. Donation has been taken from the teachers in Marathwada while appointing them. We have to stop bad elements. In western Maharashtra the priority is given to the education first and politics second In Marathwada, the educational institutions are the backbones of the politicians. So today the education is under the power of politics. Teacher should have to be respected by the educational institutions authorities. Teacher is far away from the decision making process. So he is not responsible. Teacher should have to devote for the society. That's why there is a need of independent educational institutions.

Prof. Pravin Wakte, Pro-V.C. delivered the presidential address. He said that teacher should not complete only the role of teaching but he should be devoted towards the society. This issue should have to be discussed seriously.

This programme was anchored and vote of thanks was also proposed by Dr. Anand Wagh.
