Brief Report

Radio Kisan Day, organized by All India Radio (AIR), Prasar Bharati and Dr. Babasaheb Ambedkar Marathwada University, Sub Centre, Osmanabad, took place on 15th February, 2019. The event included a workshop on water resource management and conservation, aimed at raising awareness about the importance of water conservation and sustainable practices in the region. Head, Department of Land and Water Management shared his valuable experience through this platform.

Glimpses of Radio Kisan Day Event

Participants included students, faculty members, staff, and local residents. The event was inaugurated by distinguished guests, including District Collector Parag Soman, Farming Officer Umesh Gadge, and officers from Akashwani Kendra, Osmanabad and Dr BAM University officials. The workshop focused on educating participants about water conservation, efficient water use in agriculture, and measures to mitigate water scarcity. Active participation from students, faculty members, staff, and local residents was observed, with discussions, interactive sessions, and practical demonstrations enhancing their understanding of water conservation principles and techniques. The event received positive feedback from participants, particularly students, who appreciated the opportunity to learn about water conservation. Many expressed enjoyment and satisfaction with the workshop, highlighting its educational value and relevance to contemporary environmental challenges. The workshop emphasized the importance of water conservation for society as a whole, highlighting the adverse effects of water scarcity on agriculture, livelihoods, and the environment, and the role of sustainable water management in addressing these challenges. In conclusion, Radio Kisan Day provided valuable insights into the importance of water conservation and sustainable agriculture practices, fostering knowledge exchange and dialogue among students, faculty members, staff, and local residents. The positive feedback from participants underscores the need for continued efforts to promote awareness and adoption of water conservation practices.
