Name of Activity	Donation of Divyangjan Employee with E-Vehicle
Date of Conduction	21-09-2020
Organized by	National Service Scheme
Student Participated	2

Brief Report

Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, organized an E-Vehicle Donation Program to support Divyangjan employees, a group of differently-abled individuals. The program aimed to provide accessible and environmentally friendly transportation options to these employees, enhancing their mobility and independence. The university's commitment to inclusivity, sustainability, and community engagement was demonstrated through the donation of eco-friendly electric vehicles to selected Divyangjan employees. The event was attended by university officials, faculty members, and local community members, highlighting a collective effort towards fostering an inclusive and supportive work environment. The objectives of the program were to support Divyangjan employees by providing accessible and environmentally friendly transportation options, promote inclusivity, encourage sustainable practices, foster community engagement, and expand the initiative to employees of affiliated colleges in the future.

Handing over of Vehicle Key by Hon'ble Vice Chancellor

Pre-Event Preparations included planning and coordination, resource allocation, communication and outreach, selection of beneficiaries, community engagement, training and orientation, and event activities and implementation. The Vice-Chancellor of BAMU inaugurated the event, emphasizing the university's commitment to inclusivity and sustainability. Notable guests, including disability advocacy groups and local government officials, addressed the gathering and highlighted the importance of supporting differently-abled individuals. The E-Vehicle Donation Ceremony marked the handover of e-vehicles to selected Divyangjan employees, symbolizing the university's support and recognition of their contributions. A brief demonstration on the use and features of the e-vehicles was provided, ensuring that beneficiaries were comfortable and confident in using their new vehicles. Beneficiary testimonies shared their personal experiences and the impact of receiving an e-vehicle on their daily lives. The university pledged to continue the e-vehicle donation program and expand it to include employees of affiliated colleges in the future. A signature campaign was organized to garner support from the university community and local residents for the continued success of the initiative. Community engagement activities included awareness campaigns, such as road safety and sustainability campaigns, and interactive sessions with experts on the use and benefits of e-vehicles.

Recommendations for Future Initiatives include organizing regular e-vehicle donation programs to support the ongoing needs of differently-abled employees and expanding the initiative to include more beneficiaries. Increased resource allocation would ensure the availability of sufficient e-vehicles to meet the needs of all eligible individuals. Enhanced community outreach would increase efforts to engage the community and raise awareness about the importance of supporting inclusivity and accessibility. Collaboration with sponsors would secure additional funding and support for the initiative.
