Brief Report

The Training and Placement Cell of Dr. Babasaheb Ambedkar Marathwada University (BAMU) in Aurangabad organized a successful job fair on 07-07-2023. The event attracted over 640 students from various affiliated colleges and the university campus, offering vacancies in diverse domains. The objectives of the job fair were to enhance employment opportunities, strengthen industry relations, provide professional development, and facilitate immediate job placements for students nearing graduation. The organization involved comprehensive planning to ensure a seamless and effective event that would benefit both students and employers. Company invitations were sent to a broad spectrum of companies, encouraging participation from diverse sectors. An online registration portal was set up, allowing students to register for the job fair in advance. Publicity and outreach were widely publicized through university channels, social media, and local media, ensuring high visibility and awareness among students and companies. The job fair was meticulously planned and executed, providing a structured and interactive environment for students and employers to engage effectively.

Attendance by a large number of students marked the success of Job fair organised by Training and Placement Cell Dr. Babasaheb Ambedkar Marathwad University, Aurangabad (MS)

The event schedule included an opening ceremony featuring speeches from university officials and representatives from participating companies. Companies set up booths where students could interact with recruiters, submit resumes, and learn about job openings. On-the-spot interviews were conducted by some companies to expedite the selection process and provide instant feedback to candidates. Networking sessions were dedicated time slots allocated for students to network with company representatives and gain insights into various industries and job roles. The event concluded with a closing ceremony where the outcomes were summarized, and shortlisted candidates were announced. The event saw enthusiastic participation from both students and companies, creating a dynamic and productive atmosphere. Students expressed appreciation for the opportunity to interact with multiple employers and secure job interviews on the spot. Companies praised the quality of the candidates and the efficient organization of the event, expressing interest in future collaborations with the university. The feedback from participants and stakeholders
