**Report of the Event Prepared by IQAC in consultation with concerned Department:**

The Department of Education, Osmanabad Sub Centre of Dr. Babasaheb Ambedkar Marathwada University, Aurangabad (Maharashtra), recently organized a comprehensive NET-SET Guidance Program aimed at equipping students with the necessary tools and strategies to excel in the National Eligibility Test (NET) and State Eligibility Test (SET). This initiative was designed to support students aspiring to pursue careers in teaching and research by providing them with in-depth guidance on the examination process, syllabus coverage, and effective study techniques. The program featured expert faculty members who delivered informative sessions covering various aspects of the NET and SET exams, including subject-specific content, exam patterns, and time management strategies. Additionally, students were provided with access to study materials, practice tests, and personalized coaching to enhance their preparation efforts. Through interactive workshops, mock tests, and one-on-one mentoring sessions, participants were able to gain valuable insights, clarify doubts, and strengthen their confidence in tackling these competitive exams. The NET-SET Guidance Program exemplifies the Department of Education's commitment to supporting students in their academic and professional endeavors, ultimately empowering them to achieve success in their chosen fields of education.

Departmental Committee Meeting Minutes

Departmental Committee meeting was held on 05/09/2018 and following points are discussed-

- The department of Education will start special Guidance class for NET-SET Examination.
- Mr. Jitendra Shinde will be enacting as Coordinator for this class.
- Smt. Manisha Asore will guide students regarding Educational Research Methodology and Teacher Education.
- Dr. Maheshwar Kallave will guided regarding paper-I and statistics in Education.

*M. J. Shinde*

**Bridge Course for First Year Students**

**Report of the Event Prepared by IQAC in consultation with concerned Department:**

The Department of Environmental Science at Dr. Babasaheb Ambedkar Marathwada University, Aurangabad (Maharashtra), recently organized a comprehensive Bridge Course tailored for first-year students, aimed at providing them with a solid foundation in key environmental science concepts and methodologies. This initiative was designed to bridge the gap between secondary education and higher studies, ensuring that students are well-prepared for the academic challenges of their undergraduate coursework. The Bridge Course covered a wide range of topics, including environmental pollution, conservation strategies, ecological principles, and sustainable development practices. Through a combination of interactive lectures, field visits, laboratory exercises, and group discussions, students were not only introduced to fundamental concepts in environmental science but also encouraged to apply their learning to real-world environmental challenges. The Bridge Course exemplified the Department of Environmental Science's commitment to providing holistic education and preparing students to become future leaders in environmental conservation and sustainability efforts.

**Bridge Course for First Year Students**

### Chapter I :- Concept of Environment

**Atmosphere :** Definition, structure and composition of atmosphere:: composition of air;

**Lithosphere:** Definition, structure of lithosphere, soil composition, soil profile; physical and chemical properties of soil, soil formation (pedogenesis)- physical, chemical and biological weathering.

**Hydrosphere:** Definition, structure of water molecule, properties of water, distribution of water on earth, hydrological cycle.

### Chapter II :- Ecosystems

**Introduction :** Ecology -Definition; scope; ecosystem-concept and structure of ecosystem; function of ecosystem; biotic components of ecosystem (producer, consumer and decomposer); abiotic components of ecosystem.(Wind, Temperature, Soil, Minerals, Nutrients, CO<sub>2</sub>, Solar radiation, etc)

**Types of Ecosystems:**

- a) **Terrrestrial ecosystem-** desert ecosystem ; grassland ecosystem; forest ecosystem (evergreen and deciduous) ; mountain ecosystem and marsh land.
- b) **Aquatic ecosystem -** Freshwater ecosystem - 1. Lentic ecosystem- Ponds and lakes;  
2. Lotic ecosystem - rivers and streams.

### Chapter III :- Natural Resources

**Forest :-** Deforestation ; afforestation ; Social forestry.

**Wild resources -** Important of wild life, Causes of degradation of wildlife.

**National Parks and Sanctuaries (Kanha National Park, Tadoba Wild life Sanctuary, Corbett National Park, Jalkwadi Bird Sanctuary.)**

**Energy Resource :** Fossil Fuels as energy source- types, environmental problems associated with fossil fuels

**Wind energy, Solar energy, Biodiesel /Biomass energy, Mineral resources.**

### Chapter IV :- Environmental Pollution

**Air pollution-** Sources of Air pollution and effects

**Water pollution -** Sources of Water pollution and effects

**Soil Pollution -** Sources of Soil pollution and effects

**Noise Pollution-** Sources of Noise pollution and effect

### Chapter V :- Global issues

**Ozone depletion-** causes and effects

**Global warming-major green house gases, causes and effects;**

**Acid rain-causes and effects.**

## Introduction:

The Environmental Science is a course of 21<sup>st</sup> century and it is also known as modern age course, as entire world is facing many environmental problems threatening the mankind. There are certain global environmental problems such as climate change and environmental pollution problems which are causing threat to all kinds of living organisms including man. If man and their living organisms is to be survived on earth and if we have to keep our environment in balanced condition, then we must first understand the environmental problems in detail, and then we have find out how to mitigate them, so mankind and living organisms on our planet survive for long time and our planet could maintain the balanced environment.

The environmental problems are being studied in wholistic manner for which we have to take the support of different disciplines. Therefore the environment science subject is being identified as interdisciplinary subject. By considering the interdisciplinary nature of subject, all science graduates along with allied subjects such as civil engineering etc are considered for admitting the students in M. Sc environmental Science course.

As there are the students from different science subject, admitting PG i.e M.Sc Environmental Science, many students may not be acquainted with certain important environmental aspects /components. Hence for development of the back ground in such student, there is a need of a bridge course in environmental science.

The present 'Bridge Course in Environmental Science' was designed to provide some important concepts introduction as the base to science graduates, who have not studied the environmental science subject at graduate level and this course is being implemented at beginning of M. Sc Environmental Science 1st semester.

This course is also useful for identified slow learner and fast learner from M. Sc Part I<sup>st</sup> students which is very important components of OBE curriculum. As our university is implementing OBE curriculum is post graduate study. Hence to identify the slow learner and fast learners, the assessment of this course can be used.

The bridge course contents are equivalent to 2 credits paper and hence it is to be taught in 36 lectures and at the last, the examination of this paper is to be conducted and from the result of this exam slow and fast learner candidates can be identified.

### Examination :

After the completion of teaching of this paper the examination is to be conducted by asking 30 MCQ question containing 2 marks each questions.

- i) Total MCQ to be asked =30
- ii) Marks per question = 02 marks/ question
- iii) Time of examination = 30 minutes

### Identification of slow and fast learner students :

- If student score 50% and more than 50% marks, then student is to be consider as 'fast learner'.
- If students get marks less than 50% then it is to be considered as 'slow learner'. The slow learner students to be upgrade by additional remedial teaching so they can match with the fast learner students and can study the environmental science in wholistic manner.

### Note :

The conduction of 'Bridge course in Environmental Science' is mandatory and it is to be implanted the beginning of M. Sc Environmental Science course in first semester.

### To be implemented at the beginning of Semester - I

#### Bridge Course in Environmental Science

(Theory paper for identification of slow and fast learners from class)

#### Course Objectives

Students will be able to know

- i) Dynamics of ecosystems, energy flow in ecological system, nature of a biotic and biotic components and stability concept of ecosystem.
- ii) Various types of degraded ecosystems, ecological succession, concept of climax and role of pioneer's species in restoration of ecosystems.
- iii) Population dynamics, prey predator relationship, concept of community, community competition and ecological sustainability.

iv) Nature and status of renewable and non-renewable resources, mineral resources, fishery resources, energy resources and recycle, reuse and recovery of these resources.

Teaching Scheme		Evaluation Scheme	
Teaching	-> By lectures	MCQ Test of 30 questions	-> Total 60 Marks
		Slow learners	-> Marks below 30
		Fast learners	-> Marks 30 and above 30

**Unit-I :- Ecosystem Dynamics:**

Concept of ecosystem, A biotic and biotic components, Energy in ecological system, Concept of productivity, Energy flow in ecosystem, Food chain, Food web, Ecological pyramids, Cybernetic nature and stability of ecosystem, Concept of habitat, Ecological niche, Guild, concept of ecotone, Edge effect, Ecological succession, Mechanism of succession, Concept of climax, Concept of Gaia hypothesis.

**Unit-II:- Restoration of Degraded Ecosystems:**

Degraded ecosystems such as, Forest, grassland, Desert ecosystem, Lentic and Lotic ecosystems, Coastal ecosystems, etc., Role of pioneer species in restoration, Major biomes of world.

**Unit-III :- Population and Community Ecology:**

Concept of population ecology, Population dynamics, Characteristics of population: Natality, Mortality, Fecundity, Density, Age distribution, Prey predator Relationship, Population explosion: Concept of community, Interspecific and intraspecific competition, Concept of carrying capacity, Ecological sustainability.

**Unit-IV :- Natural Resource management :**

Renewable and non-renewable resources, Wild life resources, Water resources, Water use, Water conservation, Rain water harvesting, Fishery resources, Mineral resources, Impact of over exploitation of mineral resources, Exploitation of metallic ores, Energy resources, Conventional and non-conventional energy resources, Natural resource conservation practices, Recycle, reuse and recovery of resources through 3 R principles.

**Unit-V :- Environmental Pollution abatement:**

- Air pollution** :- Sources, Air pollution episodes and disasters, Industrial pollution, Major effects of air pollution, Control measures.
- Water pollution** :- Sources, Types, Water pollution episodes and disasters, Major effects, Monitoring and preventive measures.
- Noise pollution** :- Sources, Vibration and impact isolation, Monitoring of noise, Noise pollution control equipments, Noise standard and control measures.
- Soil pollution** :- Sources, Effects, Methods of soil reclamation, Soil conservation measures.
- Radiation** :- Major sources, Nuclear fusion and fission effects, Use of nuclear weapons and their consequences, Impact, Radioactive risk assessment and waste disposal practices.

**Chapter VI :- Global issues**

- Ozone depletion- causes and effects
- Global warming-major green house gases, causes and effects.
- Acid rain-causes and effects
- Current development in the subject.

Course Outcome

Students should able to:

1. Define ecological systems and its functionality along with stability concept of ecosystem
2. Describe various types of pioneer species and their role in restoration of ecosystems.
3. Recognize ecological succession, concept of climax and degraded ecosystem.
4. Examine nature and status of renewable and non renewable energy resources, mineral resources and energy resources.

\* v) Students will also upgraded with Global issues

**Internal Quality Assurance Cell**

**NET SET Guidance Camp for Students**

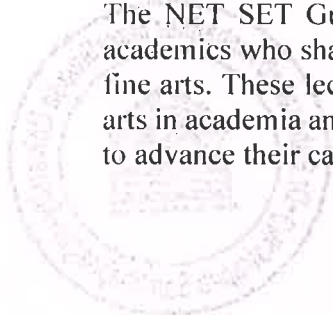

### **Report of the Event Prepared by IQAC in consultation with concerned Department:**

The Department of Fine Arts at Dr. Babasaheb Ambedkar Marathwada University, Aurangabad (Maharashtra), successfully organized a NET SET Guidance Camp for students enrolled in the Master of Fine Arts (MFA) Painting Program. This camp, aimed at preparing students for the National Eligibility Test (NET) and State Eligibility Test (SET), took place over a span of seven days and featured a series of intensive training sessions, expert lectures, and hands-on workshops. The primary objective of the camp was to equip students with the necessary knowledge, skills, and strategies to excel in the NET and SET examinations, which are crucial for those aspiring to academic and research careers in the field of fine arts. The camp began with an inaugural session presided over by the Head of the Department of Fine Arts, who emphasized the significance of these exams in opening up career opportunities in higher education and research. The Head encouraged students to utilize this camp to deepen their understanding of the exam requirements and to develop a strategic approach to their preparation.

Over the course of the camp, students received detailed guidance on various aspects of the NET and SET exams, including the examination pattern, syllabus coverage, and key subject areas relevant to fine arts and painting. Expert faculty members and invited speakers, who are experienced in the field of fine arts and have a deep understanding of the exam requirements, conducted these sessions. They provided insights into the types of questions typically asked in the exams, effective study techniques, and time management strategies crucial for achieving success. One of the highlights of the camp was the subject-specific workshops that focused on areas such as art history, aesthetic theories, visual analysis, and contemporary art practices. These workshops were designed to enhance the students' conceptual understanding and critical thinking skills, which are essential for tackling the theoretical and practical components of the exams. During these sessions, students engaged in active discussions, explored various art forms and movements, and critically analyzed artworks, thereby gaining a comprehensive understanding of the subject matter. Additionally, the camp included practical sessions where students had the opportunity to work on mock tests and sample papers. These sessions were aimed at familiarizing students with the exam format and helping them identify areas where they needed further improvement. Faculty members provided individual feedback and guidance, helping students to refine their answers and improve their performance. The practical sessions also included demonstrations on effective techniques for creating visual documentation and portfolio presentations, which are crucial components of the practical examination in fine arts.

The NET SET Guidance Camp also featured guest lectures by prominent artists and academics who shared their insights and experiences related to the exams and the field of fine arts. These lectures provided students with a broader perspective on the role of fine arts in academia and research, and the importance of excelling in the NET and SET exams to advance their careers.

The camp concluded with a feedback session where students expressed their gratitude for the invaluable support and guidance they received. Many students noted that the camp had significantly boosted their confidence and provided them with a clearer roadmap for their exam preparation. The Department of Fine Arts also gathered feedback to identify areas for improvement and to enhance the effectiveness of future guidance camps.

Overall, the NET SET Guidance Camp for the MFA Painting Program organized by the Department of Fine Arts was a resounding success. It provided a comprehensive and focused platform for students to prepare for their exams, equipping them with the tools and knowledge necessary to excel. The camp demonstrated the Department's commitment to supporting the academic and professional development of its students and to fostering a culture of excellence in fine arts education.

# Awareness of Trends in Technology

**Department of Library & Information Science  
Internal Quality Assurance Cell**

**SET NET WORKSHOP**  
(Guidance for Competitive Examination)

## **DR. BABASAHEB AMBEDKAR MARATHWADA UNIVERSITY, AURANGABAD.**

### **Department of Library and Information Science**

#### **Activities Organized in the Department**

#### **Competitive Examination Guidance (NET, SET)**

The career in library and information science is in demand because the libraries are considered as repositories of knowledge and information and are indispensable in the information age. For making Successful career in Library and Information science with post-graduation NET, SET exam have the extraordinary importance. For pay attention of students on this exams dept. organized NET SET exam preparation guidance session. Because of the merging of information technology with library science, the nature of libraries and the scope of their services have radically changed. The job involves wide range of reading and processing of the information content through cataloging, classification and indexing, storing documents and retrieving the required information and so on. Out of lakhs of students who appear every year, only thousands clear NET. To equip these aspirants with the right methodology to study and crack these exams was the motive behind organizing 'Guidance workshops'. Today there are many aspirants who are trying to obtain the NET/SET qualifications necessary for being appointed as an Assistant Professor in colleges. Such aspirants require proper guidance. This sessions provide a platform where the aspirants can get their doubts and queries cleared, to ensure that participants benefit from the guidance of the luminaries associated with the NET/SET examination process.

#### **Career Counselling**

In our Library and Information Science dept. each year organize the Career counselling Programme for MLISc 4<sup>th</sup> Semester students and also for Ph.D. Research Scholars, Career counselling plays a pivotal role in shaping the future of students. With an ever-evolving job market and an abundance of career choices, students often find themselves overwhelmed and uncertain about their career paths. Seeking professional guidance through career counselling can provide valuable insights, clarity, and direction. In this Session Students ask the various

questions about their future opportunities in Library Profession. Experts can share their valuable opinion about their Successful career and guide the student with various opportunities available in our field and also share different requirements presents in this field.

Main purpose of dept. for organize career counselling sessions is providing guidance, support, and resources, career counsellors empower students to explore their interests, develop their skills, and navigate the complex world of careers successfully. Experts share their opinion like the library and information science is filled with professionals passionate about making a positive change in the world around them. Load up with technical services courses. In the past that meant cataloging, indexing, and acquisitions courses. Now, you want to take a lot of web authoring tools classes, computer language and computer systems courses, and database classes. Also look into any classes with a legal or commercial emphasis such as copyright compliance, negotiating with vendors, the publishing industry, etc. They help students identify internships, part-time jobs, or volunteering opportunities that enhance their skills and boost their chances of securing desirable positions in the future. From this counselling students can embark on a journey of self-discovery, growth, and fulfillment, ultimately leading them to a successful and rewarding career.

08-02  
2018

**Department of Lifelong Learning and Extension  
Internal Quality Assurance Cell**

**Workshop on Writing Technique and Skill**

### **Report of the Event Prepared by IQAC in consultation with concerned Department:**

On February 8, 2018, the Department of Lifelong Learning and Extension, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad (Maharashtra), successfully organized an intensive workshop on Writing Skills and Techniques. This workshop was aimed at enhancing the writing abilities of participants, equipping them with effective writing techniques, and fostering a deeper understanding of the nuances of professional and academic writing. The event was attended by a diverse group of participants, including students, faculty members, and professionals from various disciplines, all eager to refine their writing skills. The workshop commenced with an inaugural session, where the Head of the Department of Lifelong Learning and Extension delivered a welcoming address. In their speech, they highlighted the importance of strong writing skills in both academic and professional settings, noting that effective writing is a critical tool for communication, documentation, and the dissemination of knowledge. The Head emphasized that the workshop was designed to address the various challenges faced by individuals in crafting clear, coherent, and impactful written content.

The keynote speaker delivered an engaging presentation on the foundational aspects of writing. The keynote addressed the significance of understanding the audience, purpose, and context in writing, and provided valuable insights into the different stages of the writing process, including planning, drafting, revising, and editing. The speaker also discussed common pitfalls in writing and offered practical tips for overcoming writer's block and enhancing clarity and coherence in written work. Following the keynote address, the workshop was divided into several thematic sessions, each focusing on a specific aspect of writing. The first session concentrated on academic writing techniques. Participants were introduced to the principles of structuring academic papers, writing research proposals, and crafting literature reviews. The session also covered citation styles and the importance of academic integrity, highlighting strategies for avoiding plagiarism and ensuring proper attribution of sources. The second session was dedicated to professional writing skills. This session explored various forms of professional writing, such as business reports, emails, and proposals. Participants learned about the conventions of professional writing, including the use of formal language, tone, and style. The session also provided practical exercises in writing effective resumes and cover letters, which are essential for job applications and career advancement. The third session focused on creative writing. This session encouraged participants to explore their creative potential through exercises in storytelling, poetry, and narrative writing. The facilitator emphasized the importance of creativity and originality in writing, and participants were given the opportunity to share their work and receive constructive feedback. The workshop also included interactive group activities and writing exercises designed to reinforce the concepts discussed in the sessions. Participants engaged in peer review activities, where they critiqued and provided feedback on each other's writing. This collaborative approach allowed participants to gain new perspectives on their writing and to learn from the experiences and insights of their peers.

One of the highlights of the workshop was a panel discussion on writing journeys and advices on developing a writing career. The panelists discussed the challenges and rewards of writing, the importance of perseverance and dedication, and the various opportunities available for writers in different fields. The workshop concluded with a feedback session, where participants expressed their appreciation for the valuable knowledge and skills they had gained. Many attendees noted that the workshop had significantly improved their writing abilities and provided them with practical tools to apply in their academic and professional lives. The Department of Lifelong Learning and Extension also gathered feedback to assess the effectiveness of the workshop and to plan for future events.

Overall, the workshop on Writing Skills and Techniques was a resounding success, providing participants with a comprehensive understanding of effective writing practices and equipping them with the skills necessary to excel in their academic and professional endeavors. The Department of Lifelong Learning and Extension demonstrated its commitment to fostering lifelong learning and skill development through this well-organized and impactful event.

**Workshop on Heart Diseases: Knowledge and Myth**

### **Report of the Event Prepared by IQAC in consultation with concerned Department:**

On October 11, 2018, the Department of Lifelong Learning and Extension at Dr. Babasaheb Ambedkar Marathwada University, Aurangabad (Maharashtra), organized an informative workshop titled "Heart Diseases: Knowledge and Myth." The workshop aimed to educate participants about heart health, debunk common myths related to heart diseases, and provide practical advice for prevention and management. Dr. P. Yakundi, a renowned cardiologist from Madhavbaug, served as the resource person for this event. The session was presided over by the Director of the Department of Lifelong Learning and Extension, who highlighted the importance of raising awareness about heart diseases and promoting a healthy lifestyle.

The workshop commenced with a welcome address by the Director, who emphasized the growing prevalence of heart diseases and the critical need for public awareness and education to mitigate this health crisis. The Director noted that heart diseases are one of the leading causes of mortality worldwide, and it is essential for individuals to have accurate information and understanding to take proactive steps towards maintaining heart health. Dr. P. Yakundi began his presentation by providing a comprehensive overview of heart diseases, explaining their types, causes, symptoms, and risk factors. He highlighted that heart diseases encompass a range of conditions, including coronary artery disease, heart failure, arrhythmias, and congenital heart defects. Dr. Yakundi stressed the importance of understanding these conditions to facilitate early detection, effective treatment, and prevention. A significant portion of the workshop was dedicated to addressing common myths and misconceptions related to heart diseases. Dr. Yakundi debunked several widely held myths, such as the belief that heart diseases only affect older adults or that they are primarily a male concern. He emphasized that heart diseases can affect individuals of all ages and genders and that women, in particular, may experience different symptoms and risk factors compared to men. He also clarified misconceptions about dietary habits, physical activity, and the role of cholesterol in heart health, providing evidence-based information to guide participants in making informed lifestyle choices.

Dr. Yakundi's presentation included practical advice on how to maintain a healthy heart. He discussed the importance of a balanced diet, regular physical activity, stress management, and avoiding harmful habits such as smoking and excessive alcohol consumption. He provided tips on how to incorporate heart-healthy practices into daily routines, such as choosing nutrient-rich foods, engaging in moderate exercise, and practicing relaxation techniques. The session also covered the role of regular health check-ups and the significance of monitoring key health indicators such as blood pressure, cholesterol levels, and blood sugar levels. Following the presentation, an interactive Q&A session was held, where participants had the opportunity to ask Dr. Yakundi questions about heart health and receive personalized advice. The questions ranged from specific medical concerns to general inquiries about lifestyle modifications and preventive measures. Dr. Yakundi's responses were insightful and practical, offering participants valuable guidance to improve their heart health and overall well-being.

The workshop concluded with a closing remark by the Director of the Department of Lifelong Learning and Extension, who expressed gratitude to Dr. Yakundi for his invaluable contribution and to all participants for their active engagement. The Director reiterated the department's commitment to promoting health education and lifelong learning through such informative and impactful events. Participants were encouraged to apply the knowledge gained from the workshop to their daily lives and to share this information with their communities to help raise awareness about heart diseases and the importance of heart health.

Overall, the workshop on "Heart Diseases: Knowledge and Myth" was highly successful in achieving its objectives. It provided participants with a thorough understanding of heart diseases, dispelled common myths, and offered practical advice for prevention and management. The event underscored the importance of continuous education and awareness in promoting heart health and preventing heart diseases, reflecting the Department of Lifelong Learning and Extension's dedication to enhancing community well-being through education.

**Workshop on Research Methodology**

## **Report of the Event Prepared by IQAC in consultation with concerned Department:**

The Department of Lifelong Learning and Extension at Dr. Babasaheb Ambedkar Marathwada University, Aurangabad (Maharashtra), organized a comprehensive workshop on Research Methodology, aimed at equipping participants with essential research skills and knowledge. This workshop, held on 15-11-2018, attracted a diverse group of attendees, including postgraduate students, research scholars, and faculty members from various disciplines. The primary objective of the workshop was to provide a thorough understanding of research principles, methodologies, and techniques, enabling participants to conduct high-quality research and contribute effectively to their respective fields. The workshop commenced with an inaugural session, where the Director of the Department of Lifelong Learning and Extension delivered a welcome address, emphasizing the significance of robust research methodology in academic and professional research. The Head highlighted the department's commitment to fostering a culture of research excellence and lifelong learning, and underscored the importance of equipping researchers with the skills to navigate the complexities of research in a rapidly evolving academic landscape.

### **Session 1: Introduction to Research Methodology and Design**

The first session of the workshop began with a keynote lecture on the fundamentals of research methodology. The lecture covered the basic principles of research, including the definition of research, the importance of research in advancing knowledge, and the ethical considerations that underpin responsible research practices. The speaker discussed the various types of research, such as qualitative, quantitative, and mixed-methods research, and elaborated on their respective strengths and applications. Following the keynote lecture, a session on research design was conducted. Participants were introduced to the concept of research design as a blueprint for conducting research, encompassing the formulation of research questions, hypothesis development, and the selection of appropriate research methods. The session emphasized the need for a well-thought-out research design to ensure the validity and reliability of research findings.

### **Session 2: Data Collection and Analysis Techniques**

The second session of the workshop focused on data collection and analysis techniques. The morning session was dedicated to qualitative research methods, where an expert in social sciences provided insights into various data collection techniques, including interviews, focus groups, and case studies. The expert emphasized the importance of understanding the context and perspectives of research subjects, and provided practical tips for conducting effective qualitative research. Next, a session on quantitative research methods was held, led by a statistics professor. This session covered the design and administration of surveys, experiments, and observational studies. Participants learned about sampling techniques, data collection instruments, and the importance of ensuring data accuracy and reliability. The professor also introduced statistical analysis techniques, including descriptive and inferential statistics, and demonstrated how to use statistical software for data analysis.

### **Session 3: Writing and Presenting Research**

The final session of the workshop focused on writing and presenting research findings. A senior academic provided a comprehensive guide to academic writing, covering the structure of research papers, thesis writing, and the importance of clarity and coherence in presenting research findings. Participants were given practical advice on how to write effective research proposals, literature reviews, and research articles. The session also included a discussion on citation and referencing styles, as well as tips for avoiding plagiarism and maintaining academic integrity.

### **Interactive Sessions and Workshops**

Throughout the workshop, participants engaged in interactive sessions and hands-on workshops designed to reinforce the concepts covered in the lectures. These sessions included group activities, where participants collaborated on developing research proposals, designing research studies, and analyzing data. The hands-on workshops provided participants with the opportunity to apply what they had learned in a practical setting, enhancing their understanding of research methodologies and techniques.

### **Feedback and Conclusion**

The workshop concluded with a feedback session, where participants shared their experiences and expressed their appreciation for the valuable knowledge and skills they had gained. Many attendees noted that the workshop had significantly enhanced their understanding of research methodology and provided them with practical tools and techniques to apply in their research projects. The Department of Lifelong Learning and Extension gathered feedback to assess the effectiveness of the workshop and to identify areas for improvement in future events. The closing remarks were delivered by the Director of the Department, who thanked the participants, speakers, and organizers for their contributions to the success of the workshop. The Head reiterated the department's commitment to promoting research excellence and lifelong learning, and encouraged participants to continue developing their research skills and contributing to the advancement of knowledge in their respective fields. Overall, the Research Methodology Workshop organized by the Department of Lifelong Learning and Extension was a resounding success. It provided participants with a comprehensive understanding of research principles and practices, and equipped them with the skills necessary to conduct high-quality research. The workshop demonstrated the department's dedication to fostering a culture of research excellence and lifelong learning, and to supporting the academic and professional development of students, scholars, and faculty members.

**Opportunities for Management Students  
(Career Counselling Lecture)**

**Report of the Event Prepared by IQAC in consultation with concerned Department:**

On January 16, 2019, the Department of Management Science at Dr. Babasaheb Ambedkar Marathwada University in Aurangabad organized an enlightening career counselling lecture titled 'Opportunities for Management Student,' delivered by Dr. Soumen Majumdar from Aurangabad Electrical Limited. The lecture aimed to shed light on the vast and evolving landscape of career opportunities available to those pursuing management studies. Dr. Majumdar, drawing from his extensive experience in the industry, provided a comprehensive overview of the diverse career paths and potential growth areas within the management sector. He highlighted the increasing demand for skilled management professionals across various industries, emphasizing the critical role that management education plays in equipping students with the necessary skills and knowledge to excel in these roles. The session covered emerging trends in management, including the impact of digital transformation and globalization on business practices, and underscored the importance of continuous learning and adaptability in maintaining a competitive edge. Dr. Majumdar also discussed the benefits of advanced degrees in management, such as MBAs, and the various specializations available that cater to different career interests and aspirations. The lecture was well-attended by students and faculty members, who actively engaged in the Q&A session, seeking personalized advice and deeper insights into the practical aspects of a career in management. The event provided a valuable platform for attendees to gain a clearer understanding of the opportunities and challenges in the management field, and to align their educational and career goals accordingly. Overall, the lecture was a significant success, enhancing the participants' awareness of the myriad prospects in management studies and inspiring them to pursue their career aspirations with greater confidence and clarity.

**Remedial Lecture on Business Legislation  
(Remedial Lecture)**

**Report of the Event Prepared by IQAC in consultation with concerned Department:**

On September 04, 2019, the Department of Management Science at Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, organized a series of remedial lectures focusing on various topics within Business Legislation. The initiative aimed to provide additional support and clarification to students struggling with complex legal concepts related to business and commerce. The lecture covered essential areas such as contract law, corporate governance, intellectual property rights, and labor laws, ensuring a comprehensive understanding of the legal framework that governs business operations. Responsible faculty member delivered lecture, using practical examples and case studies to elucidate the subject matter, making it more accessible and relevant to the students. The interactive sessions followed thereafter, allowed students to engage in discussions, ask questions, and resolve doubts, thereby enhancing their grasp of the critical legal principles involved in business practices. The remedial lecture received positive feedback from the attendees, who appreciated the opportunity to reinforce their knowledge and prepare more effectively for their examinations. This initiative reflects the department's commitment to supporting student learning and ensuring a thorough understanding of crucial business legislation topics.

### Report of the Event Prepared by IQAC in consultation with concerned Department:

From August 27 to September 3, 2019, the Department of Management Science at Dr. Babasaheb Ambedkar Marathwada University, Aurangabad (Maharashtra), conducted a value-added course titled "Professional Ethics and Practice" for students enrolled in the MBA and MCA programs. This intensive course aimed to inculcate a robust understanding of professional ethics and the importance of ethical behaviour in the corporate world. The course content was meticulously designed to cover various aspects of professional ethics, including ethical decision-making, corporate social responsibility, and the legal and moral obligations of business professionals. Renowned experts and experienced faculty members facilitated the sessions, employing a blend of lectures, case studies, and interactive discussions to ensure a comprehensive learning experience. They emphasized real-world applications of ethical principles, discussing contemporary ethical dilemmas and best practices in different business scenarios. The course also included workshops where students engaged in role-playing exercises to practice ethical decision-making and address potential conflicts they might encounter in their professional careers. The feedback from participants was overwhelmingly positive, highlighting the relevance and practical utility of the course content. The students appreciated the opportunity to deepen their understanding of professional ethics and expressed that the course significantly enhanced their preparedness for ethical challenges in the workplace. Overall, the value-added course on "Professional Ethics and Practice" successfully achieved its objective of equipping MBA and MCA students with the knowledge and skills necessary to navigate the ethical complexities of the professional world.

# Awareness of Trends in Technology

28/12  
2019

**Department of Management Science  
Internal Quality Assurance Cell**

**Capacity Building Lecture on Energy Management with Special  
Conservation on Petroleum Products**

**Report of the Event Prepared by IQAC in consultation with concerned Department:**

On December 28, 2019, the Department of Management Science at Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, hosted a capacity-building lecture on "Energy Management with Special Emphasis on Conservation of Petroleum Products." The lecture was delivered by Shri Kedar Khamitkar, a noted expert in the field of energy management and conservation. The event aimed to raise awareness among students and faculty about the critical importance of energy conservation, particularly focusing on the efficient use and management of petroleum products, which are pivotal yet finite resources. Shri Khamitkar provided an in-depth analysis of the current energy scenario, highlighting the challenges posed by the depletion of petroleum resources and the environmental implications of their overuse. He discussed various strategies and technologies that can be employed to optimize energy consumption and reduce dependency on petroleum products. The lecture also explored practical measures for energy conservation that can be implemented both in industrial settings and daily life. The session was highly interactive, with participants engaging in discussions and posing questions on energy efficiency practices and policies. The turnout included a significant number of students and faculty members who expressed keen interest in the topic, reflecting the program's success in enhancing awareness and knowledge about energy management and conservation. The lecture concluded with a call to action for adopting sustainable energy practices, underscoring the role of educated individuals in promoting a more sustainable future. Overall, the lecture not only provided valuable insights into energy management but also reinforced the university's commitment to fostering a culture of sustainability and responsible resource use and capacity building of students in diverse dimension.

# Awareness of Trends in Technology

11/01  
2020

**Department of Management Science  
Internal Quality Assurance Cell**

**Capacity Building Lecture on Reel v/s Real Forensics:  
A behind the Scene Look at Forensics**

**Report of the Event Prepared by IQAC in consultation with concerned Department:**

On January 11, 2020, the Department of Management Science at Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, organized an intriguing capacity-building lecture titled "Reel vs. Real Forensics: A Behind-the-Scenes Look at Forensics." The lecture was delivered by Dr. Rajesh Kumar, the esteemed Head of the Department of Forensic Science at the Government Institute of Forensic Science, Aurangabad. The event was well-attended by both students and faculty members who were eager to gain insights into the realistic aspects of forensic science, contrasting it with the often-glamorized portrayals seen in popular media. Dr. Kumar delved into the misconceptions and inaccuracies commonly depicted in crime shows and movies, providing a comprehensive understanding of the actual processes, challenges, and limitations faced by forensic scientists in real-life criminal investigations. He highlighted the rigorous scientific methodologies, the importance of meticulous evidence collection, and the ethical considerations inherent in the practice of forensics. The lecture also included real case studies that illustrated the critical role of forensic science in the criminal justice system. Dr. Kumar's engaging and informative talk prompted lively discussions and questions from the audience, who expressed keen interest in the realities of forensic work and its vital impact on society. The event successfully dispelled myths surrounding forensics, offering attendees a factual and educational perspective on the field. It underscored the university's commitment to providing valuable and accurate knowledge on important professional disciplines, fostering a more informed and critical understanding among students and faculty.

# Awareness of Trends in Technology

15/02  
2020

**Department of Management Science  
Internal Quality Assurance Cell**

**Impact of Intelligent Automation on Management**

**Report of the Event Prepared by IQAC in consultation with concerned Department:**

On February 15, 2020, the Department of Management Science at Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, organized a capacity-building lecture on the "Impact of Intelligent Automation on Management," presented by Dr. Ashutosh Mutsaddi, an esteemed expert in automation and management practices. The event was attended by a significant number of students and faculty members who were eager to understand how advancements in intelligent automation are transforming the management landscape. Dr. Mutsaddi provided an in-depth analysis of how automation technologies, such as artificial intelligence (AI) and machine learning, are revolutionizing traditional management functions, from operations to decision-making processes. He discussed the profound implications of these technologies for organizational efficiency, productivity, and strategic planning. The lecture highlighted real-world applications and case studies where intelligent automation has been successfully integrated to enhance business performance. Dr. Mutsaddi also addressed potential challenges and ethical considerations associated with the adoption of these technologies, such as job displacement and data security. The session was highly interactive, with Dr. Mutsaddi engaging with the audience's questions and fostering a dialogue on how future managers can prepare for and leverage these technological advancements. The lecture concluded with a discussion on the skills and competencies required to thrive in an increasingly automated business environment, emphasizing the need for continuous learning and adaptability. This event provided valuable insights into the future of management in the era of intelligent automation, equipping students and faculty with knowledge critical for navigating and leading in a technology-driven world.

# Awareness of Trends in Technology

08/02  
2020

**Department of Management Science  
Internal Quality Assurance Cell**

**NIPM Orientation**

### **Report of the Event Prepared by IQAC in consultation with concerned Department:**

On February 8, 2020, the Department of Management Science at Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, hosted an informative capacity-building lecture on "NIPM Orientation," featuring speakers Shri P. Dingra and Shri S. Sutavane from the Aurangabad Chapter of the National Institute of Personnel Management (NIPM). The event was attended by a diverse audience of students and faculty members who were keen to learn about the role and significance of NIPM in advancing the field of human resource management. The speakers provided an in-depth overview of NIPM's mission, its contributions to professional development in HR, and the benefits of being associated with such a prestigious institution. Shri Dingra and Shri Sutavane elaborated on the various programs, certifications, and resources offered by NIPM to support HR professionals in enhancing their skills and staying updated with the latest industry trends. They discussed the importance of continuous learning and networking in the HR field and how NIPM facilitates these through conferences, workshops, and industry collaborations. The lecture also highlighted the ethical and strategic dimensions of human resource management, emphasizing how NIPM helps professionals navigate these complexities. Attendees engaged actively in the session, posing questions about membership benefits, career advancement opportunities, and the role of NIPM in shaping future HR practices. The event concluded with a call to action for students and faculty to consider joining NIPM to benefit from its wealth of knowledge and professional support, underscoring the lecture's success in fostering interest and commitment to excellence in human resource management.

Bridge Course for B.Sc. Chemistry  
(Guidance for Competitive Examination)

### **Report of the Event Prepared by IQAC in consultation with concerned Department:**

During the academic year 2022-23, the Department of Chemistry at the Osmanabad Sub Centre of Dr. Babasaheb Ambedkar Marathwada University, Aurangabad (Maharashtra), successfully conducted a special Bridge Course designed to enhance the foundational knowledge and skills of students transitioning from undergraduate to postgraduate studies in chemistry. This course was specifically tailored to address the gaps in knowledge and prepare students for the rigorous curriculum of advanced chemistry programs, reflecting the university's commitment to academic excellence and student support. The Bridge Course was initiated to cater to the diverse educational backgrounds of incoming postgraduate students, recognizing that variations in undergraduate curricula often leave students underprepared for the challenges of graduate-level studies. The course aimed to provide a solid grounding in essential chemistry topics, ensuring a smooth transition and fostering confidence among students as they embarked on their advanced studies. The curriculum of the Bridge Course was meticulously planned to cover core areas of chemistry, including organic, inorganic, physical, and analytical chemistry. It also emphasized the development of practical laboratory skills and research methodologies. The course was structured into modular sessions, each focusing on a specific topic or skill set. These sessions included interactive lectures, hands-on laboratory exercises, and group discussions, facilitated by experienced faculty members from the Department of Chemistry. The course commenced with an orientation session where students were introduced to the objectives of the Bridge Course and the expectations for their participation. The Head of the Department of Chemistry at the Osmanabad Sub Centre delivered the inaugural address, highlighting the importance of bridging courses in preparing students for the academic rigor of postgraduate studies. He emphasized the department's dedication to providing high-quality education and support to all students, ensuring their success in their academic and professional endeavors. Throughout the duration of the Bridge Course, students engaged in a variety of learning activities designed to reinforce their understanding of fundamental chemical principles and laboratory techniques. The course included detailed reviews of key concepts such as chemical bonding, thermodynamics, kinetics, spectroscopy, and analytical methods. Each topic was accompanied by practical laboratory sessions where students could apply theoretical knowledge to real-world experiments, thereby enhancing their practical skills and reinforcing their learning. The interactive nature of the course encouraged active participation and fostered a collaborative learning

environment. Students were encouraged to ask questions, participate in discussions, and engage with their peers and instructors. This approach not only facilitated a deeper understanding of the subject matter but also helped to build a sense of community among the students, which is essential for their overall academic success. The Bridge Course concluded with a comprehensive assessment that evaluated students' grasp of the course material and their ability to apply their knowledge to practical problems. The assessment results were used to provide individualized feedback, helping students to identify areas where they needed further improvement and to develop personalized study plans for their postgraduate studies. Feedback from the students was overwhelmingly positive, with many expressing appreciation for the clarity and relevance of the course content and the supportive learning environment. They noted that the Bridge Course had significantly boosted their confidence and preparedness for the challenges of their postgraduate programs. The faculty also observed notable improvements in the students' understanding of key concepts and their readiness to engage with more advanced topics in their subsequent studies. Overall, the special Bridge Course conducted by the Department of Chemistry at the Osmanabad Sub Centre of Dr. Babasaheb Ambedkar Marathwada University was a resounding success. It played a crucial role in equipping students with the necessary foundational knowledge and skills to excel in their postgraduate studies, thereby enhancing their academic performance and paving the way for their future careers in the field of chemistry. The course exemplified the university's commitment to providing a supportive and inclusive educational environment that fosters student success and academic excellence.

Career Counselling Program  
(Guidance for Competitive Examination)

### **Report of the Event Prepared by IQAC in consultation with concerned Department:**

On August 7, 2021, the Department of Chemistry at the Osmanabad Sub Centre of Dr. Babasaheb Ambedkar Marathwada University, Aurangabad (Maharashtra), conducted a comprehensive online Career Counselling Program aimed at guiding students towards informed career choices and opportunities in the field of chemistry. The program was attended by students from various university departments and affiliated colleges, reflecting a diverse and enthusiastic participation eager to explore future career paths. Faculty members from the Department of Chemistry played a pivotal role in delivering the program, offering valuable insights and personalized guidance based on their extensive experience and expertise. The Career Counselling Program was initiated in response to the growing need for students to gain a clear understanding of the various career options available in the rapidly evolving field of chemistry, especially in the wake of the COVID-19 pandemic which had disrupted traditional educational and career pathways. The program was designed to provide a broad overview of potential career opportunities, ranging from academia and research to industry and entrepreneurship, thereby helping students to align their academic pursuits with their long-term career goals.

The event commenced with an inaugural address by the Head of the Department of Chemistry at the Osmanabad Sub Centre, who emphasized the significance of career counselling in helping students navigate their professional journeys. He highlighted the department's commitment to supporting students in achieving their career aspirations and stressed the importance of staying informed about emerging trends and opportunities in the field of chemistry. Throughout the program, faculty members delivered a series of presentations that covered a wide array of topics relevant to career planning and development. These presentations included detailed discussions on traditional and non-traditional career paths in chemistry, the role of higher education in career advancement, and the importance of skill development and continuous learning. Faculty members also provided insights into various sectors where chemists can find rewarding careers, such as pharmaceuticals, environmental science, materials science, and chemical engineering. One of the key highlights of the program was a session on the evolving job market for chemists, which explored the impact of technological advancements and global economic shifts on employment opportunities. Faculty members discussed the increasing demand for professionals with expertise in areas such as green chemistry, nanotechnology, and computational chemistry. They also highlighted the growing importance of interdisciplinary skills and the ability to adapt to changing industry requirements.

The program also included a segment on entrepreneurship in chemistry, where students were introduced to the concept of starting their own ventures and the potential for innovation in the chemical industry. Faculty members shared success stories of chemists who had ventured into entrepreneurship, providing inspiration and practical advice for students interested in pursuing this path.

In addition to the informative presentations, the program featured interactive Q&A sessions where students could ask questions and seek guidance on their specific career interests and concerns. Faculty members provided personalized advice and support, addressing queries related to career planning, job search strategies, and the skills needed to succeed in various fields of chemistry. These sessions were highly engaging and provided a platform for students to gain clarity on their career choices and receive practical tips for their professional development. The program concluded with a feedback session where participants were encouraged to share their experiences and provide suggestions for future career counselling initiatives. The feedback received was overwhelmingly positive, with many students expressing gratitude for the comprehensive and interactive nature of

the program. They appreciated the opportunity to interact with experienced faculty members and gain valuable insights into the diverse career opportunities available to them.

Overall, the online Career Counselling Program conducted by the Department of Chemistry at the Osmanabad Sub Centre of Dr. Babasaheb Ambedkar Marathwada University was a significant success. It effectively addressed the career-related needs of students, providing them with the knowledge and guidance required to make informed decisions about their future. The program demonstrated the department's dedication to fostering the professional growth of its students and supporting them in achieving their career aspirations in the dynamic and expanding field of chemistry.

Domain-wise Guidance for Competitive Examination  
(Guidance for Competitive Examination)

### **Report of the Event Prepared by IQAC in consultation with concerned Department:**

On January 28, 2023, the Department of Chemistry at the Osmanabad Sub Centre of Dr. Babasaheb Ambedkar Marathwada University, Aurangabad (Maharashtra), hosted a Domain-Wise Career Guidance Program designed to provide targeted and specialized career advice to students pursuing studies in chemistry. This comprehensive program aimed to address the diverse career aspirations of students by offering tailored guidance across various domains within the field of chemistry. The event featured senior faculty members from adjacent institutions who brought their extensive expertise and real-world experience to guide the students in making informed career choices. The program was organized to help students understand the wide range of career opportunities available in different sub-disciplines of chemistry and to equip them with the knowledge and skills needed to excel in their chosen fields. Recognizing the complexity and breadth of the chemistry sector, the program was structured to offer domain-specific insights that could help students align their academic interests with professional opportunities.

The event began with a welcome address by the Head of the Department of Chemistry at the Osmanabad Sub Centre, who emphasized the importance of specialized career guidance in helping students navigate the complex landscape of professional opportunities in chemistry. He highlighted the department's commitment to providing comprehensive support to students as they plan their future careers, ensuring that they are well-prepared to meet the demands of the industry and academia. Throughout the day, senior faculty members from adjacent institutions led a series of domain-focused sessions, each dedicated to a specific area within the field of chemistry. These sessions covered a wide range of topics, including analytical chemistry, organic synthesis, pharmaceutical chemistry, environmental chemistry, and materials science. Each session provided a deep dive into the respective domain, offering students a detailed understanding of the current trends, key skills, and career paths available in that area.

In the session on analytical chemistry, faculty members discussed the critical role of analytical techniques in quality control, research, and development across various industries. They highlighted career opportunities in sectors such as pharmaceuticals, environmental testing, and food safety, where skilled analytical chemists are in high demand. Practical advice on building a career in this domain, including essential skills and qualifications, was also provided. The session on organic synthesis focused on the importance of organic chemists in the development of new drugs, materials, and industrial chemicals. Faculty members provided insights into the latest advancements in synthetic methodologies and the growing opportunities for chemists in pharmaceutical companies, research institutions, and chemical manufacturing firms. They also discussed the significance of research experience and advanced degrees in pursuing a successful career in organic synthesis.

Pharmaceutical chemistry was another key focus of the program, with faculty members discussing the critical role of chemists in drug discovery and development. They highlighted the career prospects in pharmaceutical companies, research laboratories, and regulatory agencies, and provided guidance on the qualifications and skills needed to succeed in this competitive field. The session emphasized the importance of interdisciplinary knowledge, including biochemistry and pharmacology, in enhancing career prospects in pharmaceutical chemistry. Environmental chemistry was addressed in a session that explored the growing demand for professionals who can address environmental challenges through chemical research and analysis. Faculty members discussed career opportunities in environmental consulting firms, government agencies, and research institutions. They also highlighted the importance of understanding environmental regulations and policies, as well as the skills needed to conduct environmental impact assessments and develop sustainable solutions.

The session on materials science provided students with insights into the exciting opportunities available in the development of new materials with advanced properties for applications in electronics, energy storage, and aerospace. Faculty members discussed the interdisciplinary nature of materials science, which combines chemistry, physics, and engineering, and highlighted the career paths available in research and development, manufacturing, and academia. Each session was followed by a Q&A segment, allowing students to engage directly with the faculty members and ask questions specific to their interests and career goals. These interactive discussions provided valuable personalized advice and helped students gain a clearer understanding of the steps they need to take to achieve their professional aspirations. The program concluded with a feedback session where students expressed their appreciation for the detailed and domain-specific guidance they received. Many students noted that the program had broadened their perspective on the career opportunities available in chemistry and had provided them with a clearer roadmap for their future.

Overall, the Domain-Wise Career Guidance Program conducted by the Department of Chemistry at the Osmanabad Sub Centre of Dr. Babasaheb Ambedkar Marathwada University was a significant success. It effectively addressed the diverse career guidance needs of the students, providing them with the knowledge and direction required to pursue successful careers in various domains within the field of chemistry. The program underscored the department's dedication to supporting the professional development of its students and preparing them to excel in their chosen fields.

Lecture by Dr. Kashinath Deodhar (Senior Scientist, DRDO)  
Strength of Indian Defense System and Defense Technology

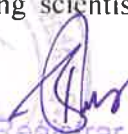

## Report of the Event Prepared by IQAC in consultation with concerned Department:

On December 13, 2022, the Department of Chemistry at the Osmanabad Sub Centre of Dr. Babasaheb Ambedkar Marathwada University, Aurangabad (Maharashtra), hosted an enlightening lecture by Dr. Kashinath Deodhar, a Senior Scientist from the Defence Research and Development Organisation (DRDO). The lecture, titled "Strength of Indian Defense System and Defence Technology," attracted a full audience of students and staff members who were eager to gain insights into the advancements and capabilities of India's defense systems. Dr. Deodhar, known for his extensive experience and expertise in defense technology, provided a comprehensive overview of the strategic strengths and technological innovations that form the backbone of India's defense infrastructure. The lecture began with a warm welcome and introduction by the Head of the Department of Chemistry, who emphasized the importance of understanding the role of scientific research in national defense and security. Dr. Deodhar commenced his presentation by highlighting the historical evolution of India's defense capabilities, illustrating how DRDO has been instrumental in transforming the country into a self-reliant defense power. He discussed key technological advancements in various domains such as missile systems, aerospace engineering, electronic warfare, and advanced materials, all of which play a crucial role in fortifying the nation's defense.

One of the key aspects of Dr. Deodhar's lecture was his detailed explanation of the missile development program, where he showcased the various types of missiles developed by DRDO, including ballistic, cruise, and anti-tank missiles. He elaborated on the technological challenges overcome during the development of these systems and how they contribute to the strategic defense capabilities of the country. Dr. Deodhar also touched upon the advancements in aerospace technology, particularly the development of indigenous fighter aircraft and unmanned aerial vehicles (UAVs), which are vital for maintaining air superiority and surveillance capabilities.

In the realm of electronic warfare, Dr. Deodhar highlighted the significance of sophisticated radar systems, electronic countermeasures, and cyber defense technologies that are essential for modern warfare. He emphasized the continuous efforts of DRDO to stay ahead of potential threats by developing cutting-edge technologies that enhance the operational efficiency and resilience of the Indian armed forces. Dr. Deodhar's lecture also shed light on the role of advanced materials in defense technology, including the development of lightweight yet robust materials for protective gear and vehicles, and the use of composite materials in aerospace applications to improve performance and durability. He underscored the importance of interdisciplinary research and collaboration between scientists, engineers, and defense personnel to achieve technological breakthroughs that bolster national security.

The lecture concluded with an engaging Q&A session, where students and staff members posed questions on a wide range of topics, from specific technological innovations to the future prospects of India's defense industry. Dr. Deodhar's responses were not only informative but also inspiring, encouraging students to consider careers in defense research and to contribute to the nation's technological advancements. Dr. Kashinath Deodhar's lecture was met with great enthusiasm and appreciation from the attendees, who gained a deeper understanding of the complexities and significance of defense technology in safeguarding the nation. The event highlighted the pivotal role that educational institutions play in fostering awareness and interest in defense-related research and technology. Overall, the lecture served as a valuable learning experience for all participants, reinforcing the crucial link between scientific research and national defense, and demonstrating the immense potential for young scientists to contribute to the nation's security and technological prowess.

**Program Title** : Entrepreneurship Development Program  
**Program Date** : " 25 February 2020" 11:15 am  
**Program Place** : APJ Abdul Klam Hall, Dept of Commerce Dr. BAMU Aurangabad

**Entrepreneurship Development Program, 25 February 2020**

Department of Commerce has conducted Entrepreneurship Development Program (EDP) every year to guide and benefit the students from the opportunities available in various industries based on agriculture and agricultural products in rural areas.

This year the workshop was organized on 25th February 2020. Entrepreneurs and officials of MCED were invited to guide the workshop. Entrepreneurs Mrs. Jyoti Shitole, Mr. DS Patange, Mrs. Archana Manpure, Mr. Deepak Bhingardive were invited.

The small entrepreneurs who attended the event provided valuable guidance to the students and shared their experiences.

Mr. Deepak Bhingardive, Director, MCED, provided guidance on how to prepare a project report. A group discussion was held at the end of the event, Prof. Walmik Sarwade, Dean, Department of Commerce, urged the students to start small scale industries and agro-based business. Students from various departments of the university participated in this program. The event concluded with vote of thanks.

- **Date:** Saturday, 27th August 2022
- **Guest Speaker:**
  - Professor Syed Azharuddin, Head, Department of Commerce, Ambedkar Marathwada University, Aurangabad, Maharashtra
- **Topic:** "Academic Integrity & Research Ethics"
- **Points Covered:**
  1. **Research Concept:**
    - Professor Syed Azharuddin elucidated the fundamental concepts of research, emphasizing the importance of clarity in defining research questions.

### **3. Nuances of Topic Selection:**

- The speaker delved into the intricacies of selecting a research topic, considering its relevance, feasibility, and potential contribution to the existing body of knowledge.

### **4. Bottleneck:**

- Identified potential bottlenecks and challenges in the research process, providing insights on overcoming obstacles and ensuring smooth progression.

### **5. Literature Review:**

- Professor Azharuddin emphasized the critical role of a thorough literature review, guiding participants on the process of reviewing and synthesizing information to inform and shape their own work.

### **6. Styles (MLA, APA, etc.):**

- Detailed insights were shared regarding different citation styles, including MLA and APA, underlining the importance of maintaining precision in citations.

### **7. Objective/Hypothesis:**

- Clarification on formulating clear research objectives and hypotheses, highlighting these as essential components for guiding the research and ensuring meaningful outcomes.

### **8. Data Collection Type:**

Various data collection methods were explored, and the

## 9. Ethical Issues in Research:

- Professor Azharuddin concluded by addressing ethical concerns in research, emphasizing the importance of maintaining integrity and respect for participants' rights.

### ➤ Conclusion:

Professor Syed Azharuddin's session at the "Pre PhD Course" provided a solid foundation for aspiring researchers with valuable insights into the ethical considerations of academic research. The comprehensive coverage of research methods, and ethical considerations equipped participants with a strong foundation as they embark on their doctoral journeys. The engaging session facilitated a deeper understanding of the importance of integrity in maintaining academic integrity throughout the research process.

# Awareness of Trends in Technology

15-03  
2019

**Department of Economics**  
**Internal Quality Assurance Cell**

## Report of the Event Prepared by IQAC in consultation with concerned Department:

On March 15, 2019, the Department of Economics, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad (Maharashtra), organized a National Symposium on Concurrent Potential Areas in Indian Economics. The symposium, hosted by the Center for Potential Excellence in Public Administration (CPEPA), aimed to explore and discuss emerging areas with significant potential for economic growth and development in India. The event brought together scholars, researchers, policymakers, and practitioners from across the country to engage in meaningful dialogue and exchange ideas on pressing economic issues. The symposium began with an inaugural address by the Head of the Department of Economics, who underscored the importance of identifying and harnessing potential areas of growth to propel India's economic progress. He emphasized the need for interdisciplinary collaboration and innovative approaches to address contemporary economic challenges effectively. The keynote speaker, a renowned economist with expertise in developmental economics, delivered an insightful presentation on the evolving economic landscape of India and highlighted key sectors and policy interventions that could drive sustainable development. Following the keynote address, the symposium featured several thematic sessions, each focusing on a specific area of economic potential. Topics ranged from agriculture and rural development to industry, trade, finance, and social sectors. Eminent scholars and experts presented their research findings and perspectives on various dimensions of these sectors, offering critical insights into the opportunities and challenges they present for India's economic growth trajectory.

In the agriculture and rural development session, discussions revolved around enhancing agricultural productivity, promoting sustainable farming practices, and addressing rural poverty and inequality. Experts highlighted the role of technology, infrastructure development, and policy reforms in revitalizing India's agrarian economy and improving the livelihoods of rural communities. Similarly, the industry and trade session explored strategies to foster industrial growth, encourage entrepreneurship, and boost India's competitiveness in global markets. The finance session delved into issues related to financial inclusion, banking reforms, and capital market development, underscoring the need for robust financial systems to support economic growth and inclusive development. The social sector session focused on education, healthcare, and social welfare policies, emphasizing the importance of human capital development and social protection measures in fostering equitable and sustainable development outcomes. Throughout the symposium, participants engaged in lively discussions, debates, and knowledge-sharing activities, fostering intellectual exchange and collaboration among stakeholders. The event provided a platform for networking and building partnerships, facilitating the exchange of best practices and innovative ideas to address complex economic challenges. The symposium concluded with a closing session where key takeaways and recommendations were summarized. Participants highlighted the need for evidence-based policymaking, stakeholder engagement, and institutional reforms to unlock the full potential of India's economy. The organizers expressed their gratitude to all participants for their valuable contributions and committed to disseminating the insights generated during the symposium through policy briefs, research publications, and outreach activities.

Overall, the National Symposium on Concurrent Potential Areas in Indian Economics served as a significant forum for advancing knowledge, fostering collaboration, and shaping the discourse on India's economic development agenda. The event underscored the importance of interdisciplinary dialogue and collective action in identifying and leveraging opportunities for inclusive and sustainable growth in the country.

**Department of Education  
Internal Quality Assurance Cell**

Constitution of SET-NET Cell and Competitive Examination Cell

## **Report of the Event Prepared by IQAC in consultation with concerned Department:**

In response to the growing need for comprehensive career-oriented guidance among students, the Department of Education at Dr. Babasaheb Ambedkar Marathwada University, Aurangabad (Maharashtra), has established two essential committees: the SET NET Cell and the Competitive Exam Cell. These committees are tasked with organizing and overseeing initiatives aimed at providing students with guidance and support to excel in competitive examinations and pursue successful careers in their respective fields.

The SET NET Cell comprises experienced faculty members with expertise in various subjects covered by the State Eligibility Test (SET) and the National Eligibility Test (NET). The committee's primary objective is to assist students in preparing for these examinations by providing them with comprehensive study materials, organizing mock tests, and conducting regular review sessions to assess their progress. Additionally, the SET NET Cell is responsible for disseminating information about examination dates, eligibility criteria, and application procedures, ensuring that students are well-informed and adequately prepared to undertake these competitive exams.

Similarly, the Competitive Exam Cell consists of dedicated faculty members who specialize in guiding students through a wide range of competitive examinations beyond SET and NET, including civil services exams, banking exams, and other competitive recruitment tests. The committee's mandate is to identify relevant competitive examinations of interest to students, develop targeted study plans and resources, and provide personalized coaching and mentoring to help students navigate the complexities of these exams successfully. Moreover, the Competitive Exam Cell collaborates with external training institutes, subject matter experts, and alumni to offer additional support and resources to students aspiring to excel in competitive examinations.

Both committees work closely with the Department of Education's academic and administrative staff to coordinate various career-oriented guidance activities, such as workshops, seminars, guest lectures, and counseling sessions. They also liaise with other departments within the university and external stakeholders, including government agencies, educational institutions, and industry partners, to leverage resources and expertise in enhancing students' preparation and performance in competitive exams.

The constitution of the SET NET Cell and the Competitive Exam Cell underscores the Department of Education's commitment to providing holistic support and guidance to students pursuing career-oriented paths. By equipping students with the necessary knowledge, skills, and resources to excel in competitive examinations, these committees play a pivotal role in empowering students to achieve their academic and professional aspirations, thereby contributing to their overall personal and professional growth.

Bridge Course for First Year Students

## Report of the Event Prepared by IQAC in consultation with concerned Department:

The Department of Education at Dr. Babasaheb Ambedkar Marathwada University, Aurangabad (Maharashtra), conducted a week-long Bridge Course tailored for first-year students, aimed at providing them with a strong foundation in key educational concepts and pedagogical approaches. This comprehensive program was meticulously designed to bridge the gap between secondary education and higher studies, ensuring that students are well-prepared for the academic rigors of their undergraduate coursework. The Bridge Course covered a diverse range of topics, including educational psychology, teaching methodologies, curriculum design, and assessment techniques, thereby equipping students with the essential knowledge and skills to thrive in their academic pursuits. Through a combination of interactive lectures, hands-on activities, group discussions, and practical exercises, students were not only introduced to fundamental concepts in education but also encouraged to actively engage with the material and apply their learning in real-world contexts. The Bridge Course exemplified the Department of Education's commitment to providing holistic support and guidance to students, empowering them to succeed academically and contribute meaningfully to the field of education.

**NET SET Guidance Cell**

### Report of the Event Prepared by IQAC in consultation with concerned Department:

The Department of Education, Osmanabad Sub Centre of Dr. Babasaheb Ambedkar Marathwada University, Aurangabad (Maharashtra), recently organized a comprehensive NET-SET Guidance Program aimed at equipping students with the necessary tools and strategies to excel in the National Eligibility Test (NET) and State Eligibility Test (SET). This initiative was designed to support students aspiring to pursue careers in teaching and research by providing them with in-depth guidance on the examination process, syllabus coverage, and effective study techniques. The program featured expert faculty members who delivered informative sessions covering various aspects of the NET and SET exams, including subject-specific content, exam patterns, and time management strategies. Additionally, students were provided with access to study materials, practice tests, and personalized coaching to enhance their preparation efforts. Through interactive workshops, mock tests, and one-on-one mentoring sessions, participants were able to gain valuable insights, clarify doubts, and strengthen their confidence in tackling these competitive exams. The NET-SET Guidance Program exemplifies the Department of Education's commitment to supporting students in their academic and professional endeavors, ultimately empowering them to achieve success in their chosen fields of education.

**High Tech Entrepreneurship Development Program**

### Report of the Event Prepared by IQAC in consultation with concerned Department:

On September 01, 2022, the Department of Management Science at Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, in collaboration with BARTI (Babasaheb Ambedkar Research and Training Institute), Pune, and MCED (Maharashtra Centre for Entrepreneurship Development), Aurangabad, successfully organized a one-day High Tech-Entrepreneurship Development Program. This initiative aimed to foster entrepreneurial skills and innovation among students and budding entrepreneurs. The program brought together a diverse group of participants, including students, faculty members, and aspiring entrepreneurs, who were eager to gain insights into the latest trends and technologies driving modern entrepreneurship. The event featured a series of expert-led sessions that covered various aspects of high-tech entrepreneurship, such as leveraging emerging technologies, navigating the startup ecosystem, and understanding funding opportunities and business model development. The distinguished speakers from BARTI and MCED provided invaluable guidance on how to harness technology to create scalable and sustainable business ventures. They also highlighted government schemes and support mechanisms available for entrepreneurs, particularly those from marginalized communities. Interactive workshops and case studies offered practical exposure to the entrepreneurial process, from ideation to execution, focusing on innovation and problem-solving. Participants were encouraged to engage in networking sessions, which provided them with opportunities to connect with industry experts and potential mentors. The program concluded with a motivational talk that underscored the importance of resilience, continuous learning, and adaptability in the entrepreneurial journey. The high participation rate and positive feedback from attendees underscored the program's success in enhancing entrepreneurial knowledge and fostering a spirit of innovation and self-reliance. This event not only provided a platform for knowledge sharing but also reinforced the university's commitment to promoting entrepreneurship and economic development through high-tech solutions and inclusive growth strategies.

दुरधर्तीत डीआरडीओचे निवृत्त संचालक तथा गन एक्स्पर्ट देवधर यांचे मत

## डॉ. कलांमांनी वाढवला आत्मविश्वास

प्रतिनिधी

डॉ. एपीजे जयकुल कलांमांनी भारताची मान जगात सरक्षण क्षेत्रात उंचावेल, अशी कामगिरी करावी आहे. प्रत्येक भारतीयकला नटारसनेचे स्वप्न दाखवून त्यांनी आत्मविश्वास वाढवला. अगम मत 'डॉ.आरडीओ'चे निवृत्त मंचालक

तथा गन एक्स्पर्ट काशीनाथ देवधर यांनी व्यक्त केले. विद्यार्थ्यांतील व्यवस्थापनशास्त्र विभागाच्या विद्यार्थ्यांशी त्यांनी संवाद साधला. त्या वेळी ते बोलत होते.

अध्यक्षस्थानी वाणिज्य व व्यवस्थापनशास्त्र विद्याशाखेचे अधिष्ठाता तथा व्यवस्थापन परिषद सदस्य डॉ. बाल्मीक सरवदे होते. विभागाचे संचालक

देवधर यांनी व्यवस्थापनशास्त्र विभागातील विद्यार्थ्यांशी संवाद साधला.

डॉ. फारुख खान यांची प्रमुख उपस्थिती होती. प्रारंभी देवधर यांचा कल्पती तथा राज्यपाल नामनिर्देशान व्यवस्थापन नियुक्ती परिषद सदस्य म्हणून कलांमांनी त्यांच्यासोबत मला काम करण्याची संधी मिळाली ती मोठाची होती. आपल्या सहकाऱ्यांवर विश्वास कसा ठेवायचा, याचे डॉ. कलांमांनी आदर्श उदाहरण आहे. त्यांचे संवाद कौशल्य अद्वितीय होते. तत्कालीन पंतप्रधान अटलबिहारी वाजपेयी यांच्या कार्यकाळात ११ मे १९९८ रोजी अणुचाचण्यांनंतर आपल्या देशाचा नावलौकिक

इतका भारवाच अधून जो बड्डका नावाची गन वापरतात तिचे सुत्रातील २६ किलो वजन होते. ते कमी करून १४ किलो करण्याचे काम 'गन एक्स्पर्ट' म्हणून आपण केल्याचे त्यांनी सांगितले. जॉनश्वर गिरी यांनी सूत्रसंचालन केले. डॉ. सेनाली श्रीरसागर यांनी आभार मानले. डॉ. अभिजित शेंळकं, प्रा. राम कलानी, डॉ. यशवंत वायकर, डॉ. श्वेता पाटील यांची उपस्थिती होती. कार्यक्रम यशस्वीरित्या पार पाडण्यासाठी विभागातील संशोधक विद्यार्थी स्नेहल उमाटे, आनंद शिरसाठ, अना खान, सखद मुनावर यांनी परिश्रम घेतले. कार्यक्रमामस एमबीए आणि एमसीएचे विद्यार्थी मोठ्या संख्येने उपस्थित होते.

**Webinar on 'Overview of Financial Market'**

### Report of the Event Prepared by IQAC in consultation with concerned Department:

On October 14, 2022, the Department of Management Science at Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, in collaboration with the Bombay Stock Exchange Broker Forum, successfully hosted an informative webinar titled "Overview of Financial Market." This event aimed to provide students and faculty members with a comprehensive understanding of the intricacies of the financial market. The webinar was attended by a diverse audience, including students, faculty, and finance enthusiasts keen on deepening their knowledge of financial market operations and trends. Expert speakers from the Bombay Stock Exchange (BSE) Broker Forum delivered insightful presentations, beginning with an introduction to the structure and function of financial markets, including stock exchanges, commodity markets, and forex markets. They delved into the key components that drive market behavior, such as trading mechanisms, market indices, and the roles of various financial instruments like stocks, bonds, and derivatives. The session also highlighted the regulatory framework governing financial markets in India, emphasizing the importance of market integrity and investor protection. Attendees were provided with an overview of investment strategies, market analysis techniques, and the current trends shaping the financial landscape. The speakers discussed the impact of global economic events on the Indian market, offering a practical perspective on how investors can navigate market volatility and capitalize on investment opportunities. Interactive segments of the webinar encouraged participants to engage with the experts, ask questions, and discuss real-world scenarios, thus enhancing their practical understanding of the financial market dynamics. The event concluded with a focus on career opportunities in the financial sector, providing guidance on the skills and qualifications required to pursue a successful career in finance. The high level of engagement and positive feedback from participants highlighted the webinar's success in demystifying the financial market and equipping attendees with valuable knowledge that is critical for making informed financial decisions. This collaborative initiative with the Bombay Stock Exchange Broker Forum underscored the university's commitment to delivering quality education and fostering financial literacy and professional development among its academic community.

**Seminar on 'Budget 2023'**

**Report of the Event Prepared by IQAC in consultation with concerned Department:**

On March 20, 2023, the Department of Management Science at Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, organized an insightful seminar focused on 'Budget - 2023'. The seminar featured a distinguished panel of experts including Dr. Dhanshri Mahajan from the Department of Economics at the university, CA Vijay Rathi, Mr. G. Sreekanth, and Mr. D. Tuljapurkar, who brought extensive knowledge and experience in finance and economics to the discussion. The seminar attracted a diverse audience of students and faculty members eager to delve into the intricacies of the newly announced budget. Dr. Dhanshri Mahajan provided a comprehensive analysis of the economic policies outlined in the budget, highlighting key measures aimed at stimulating growth, addressing social welfare concerns, and fostering sustainable development. CA Vijay Rathi offered valuable insights into the budget's implications for taxation, discussing changes in tax laws, their impact on businesses and individuals, and strategies for compliance. Mr. G. Sreekanth and Mr. D. Tuljapurkar focused on the budget's impact on sectors such as infrastructure, corporate governance, and financial markets, exploring opportunities and challenges for economic stakeholders. The seminar fostered engaging discussions and interactive sessions where participants had the opportunity to pose questions and gain deeper insights into the strategic implications of the budgetary decisions. The event concluded with a forward-looking perspective on economic prospects, emphasizing the importance of informed decision-making in navigating the evolving economic landscape. Overall, the seminar on 'Budget - 2023' proved to be a valuable platform for knowledge exchange, enhancing attendees' understanding of current economic policies and their implications for various sectors.

# Awareness of Trends in Technology

13/3 to 15/3  
**2023**

**Department of Management Science  
Internal Quality Assurance Cell**

**Workshop on Digital Entrepreneurship**

**Report of the Event Prepared by IQAC in consultation with concerned Department:**

From March 13 to 15, 2023, the Department of Management Science at Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, hosted an enriching workshop on Entrepreneurship Development. The workshop, facilitated by esteemed resource person Shri Yogesh Udgire, aimed to incorporate entrepreneurial skills and foster innovative thinking among students and faculty members. Mr. Udgire, known for his expertise in startup mentoring and business consulting, guided participants through a comprehensive curriculum covering key aspects of entrepreneurship. Sessions included practical insights into business ideation, feasibility analysis, business plan development, funding strategies, and market validation techniques. Attendees actively participated in interactive discussions, case studies, and hands-on exercises designed to simulate real-world entrepreneurial challenges. Mr. Udgire's engaging delivery and real-life examples inspired participants to explore entrepreneurial opportunities and develop actionable plans for their ventures. The workshop also emphasized the importance of resilience, adaptability, and continuous learning in navigating the entrepreneurial journey. Students and faculty members found the workshop immensely valuable, gaining practical knowledge and insights that are essential for entrepreneurial success in today's competitive landscape. The event concluded with a renewed commitment among participants to leverage their newfound skills and knowledge to contribute meaningfully to the entrepreneurial ecosystem. Overall, the Entrepreneurship Development workshop served as a pivotal platform for fostering entrepreneurial spirit and empowering participants to embark on their entrepreneurial endeavors with confidence and competence.

# Awareness of Trends in Technology

24/03  
2023

**Department of Management Science  
Internal Quality Assurance Cell**

**Workshop on 'Startup Entrepreneurship  
Skills, Business Communication and Corporate Etiquettes**

**Report of the Event Prepared by IQAC in consultation with concerned Department:**

On March 24, 2023, the Department of Management Science at Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, organized a comprehensive workshop titled 'Startup Entrepreneurship Skills, Business Communication and Corporate Etiquettes.' The workshop, led by Professor Raghavan Iyyengar, a distinguished corporate trainer based in Pune, aimed to equip students and faculty members with essential skills and knowledge crucial for succeeding in the dynamic corporate world. Professor Iyyengar's sessions covered a wide range of topics essential for budding entrepreneurs and professionals, including startup entrepreneurship skills such as idea generation, business planning, and pitching. Additionally, participants received practical guidance on effective business communication strategies, encompassing verbal and written communication, presentation skills, and professional networking. The workshop also emphasized the significance of corporate etiquettes and professional conduct in fostering positive workplace relationships and enhancing career prospects. Through interactive exercises, role-plays, and case studies, attendees gained hands-on experience in applying these skills in real-world scenarios. Professor Iyyengar's engaging delivery and practical insights resonated well with the participants, sparking lively discussions and collaborative learning opportunities. The workshop concluded with a Q&A session where participants clarified doubts and received personalized advice on enhancing their entrepreneurial and professional competencies. Overall, the workshop on Startup Entrepreneurship Skills, Business Communication, and Corporate Etiquettes proved highly beneficial, empowering attendees with practical skills and confidence needed to navigate and excel in today's competitive business environment. The event underscored the university's commitment to providing holistic education and preparing students for successful careers in entrepreneurship and corporate sectors.

To,  
Professor Raghvan Ayeangar,  
Sr. Associate Faculty & Corporate Trainer,  
Pune.

**Subject:-** Workshop Conducted on 24<sup>th</sup> March 2023 on the topic Start up, Entrepreneurial Skills, Business Communication & Corporate Etiquettes

Sir,

We are thankful to you for accepting our invitation and conducting the Workshop on the topic titled "Startup Entrepreneurial Skills Business Communication & Corporate Etiquettes" at our Department. I am pleased to inform you that our students were immensely benefited from the workshop and have expressed high satisfaction in this regard. I wish to congratulate you for excellent delivery of the topic and express best wishes in your future endeavor.

Looking forward to have mutual association in future too.

Thanks and regards.

Dr. Mohd Farooque Khan  
Director

Placed below few lines to the Hon. Vice-Chancellor for his consideration and Approval.

It is decided in Departmental Meeting enclosed at Flag 'A' held on 24<sup>th</sup> January 2023 at Department of Management Science to conduct one day workshop of Master Facilitator Mr. Raghvan Ayeangar who has vast experience of the Banking Industry. The rationale behind conducting the one day workshop is to take benefit of Mr. Raghvan Ayeangar's expertise in soft skills corporate etiquettes and business communication enclosed at Flag 'B'

The expenses to be incurred for conducting the one day workshop has been tabulated as below.

Sr.No.	Details of Expenses	In Ruppes
01	Honorarium for Conducting one day workshop	3,000/-
02	Accommodation with Breakfast, Lunch & Dinner with Staying Charges at our University Guest House for one day	2,000/-
	Total	5,000/-

The Expenditure will be debited from Budget Head for the Financial Year 2022-2023 "परिषदा/घर्षारात्र/कार्यशाळा" Item No.04 Page No.119, of which Rs.31,545/- is unspent.

Therefore it is requested to the Hon. Vice-Chancellor to accord his administrative approval for the same.

If approved same will be informed to the concerned authorities and expenses will be done.

Sub- Campus, Osmanabad

The orientation program for newly admitted students in the academic year 2019-20 was organized on 16<sup>th</sup> of September, 2019 on 11.00 AM in the Department of Management Science. The program was intended to equip newly admitted students with the knowledge of University, Sub-campus, department, programs, syllabus, exam pattern and other routine tasks and practices of the department. The program was started at sharp 11 Am. The program was started with introduction session of teachers and students to each other.

Information about the University, Sub-campus, and Department was imparted to the students by Prof. Sachin Kacharulal Bassaiye in the first session of the program. In this section the information from establishment of the University to the present working and practices of the university are communicated to the students. Also various activities and programs of the department was also kept before the eyes of the students.

Second session of the program was conducted by Dr. Vikram Harishchandra Shinde. In this section thorough information about the syllabus, subject to be studied, Service course, importance of the subjects according to current market needs is discussed with the students. Various opportunities after management education in corporate sector and government sector also informed to the students. The role of entrepreneurship and its relation with the subjects offered was also communicated with the students. Further the examination pattern and structure was also introduced to the students.

In the third session of the program, Dr. Suyog Arunrao Amrutrao informed students about the achievements of the department. In this part, the journey of the department was also kept before the students. Various expectations from students were also communicated in this section. The internal works structure and their respective responsible persons were introduced to the students so that in future it will be easy for students to cope up with routine practices. Various facilities available in the University sub-campus was discussed with the students.

Fourth session of the program was conducted by Prof. Varunraj Chandrakant Kalse. In this session the information of various available facilities for the students were informed. A tour of the department also arranged after the program by Prof. Prof. Varunraj Chandrakant Kalse.

The anchoring for the program was done by Prof. Sachin Kacharulal Bassaiye and vote of thanks was presented by Prof. Mamata Sabane

**Career Counselling Training Program**

### **Report of the Event Prepared by IQAC in consultation with concerned Department:**

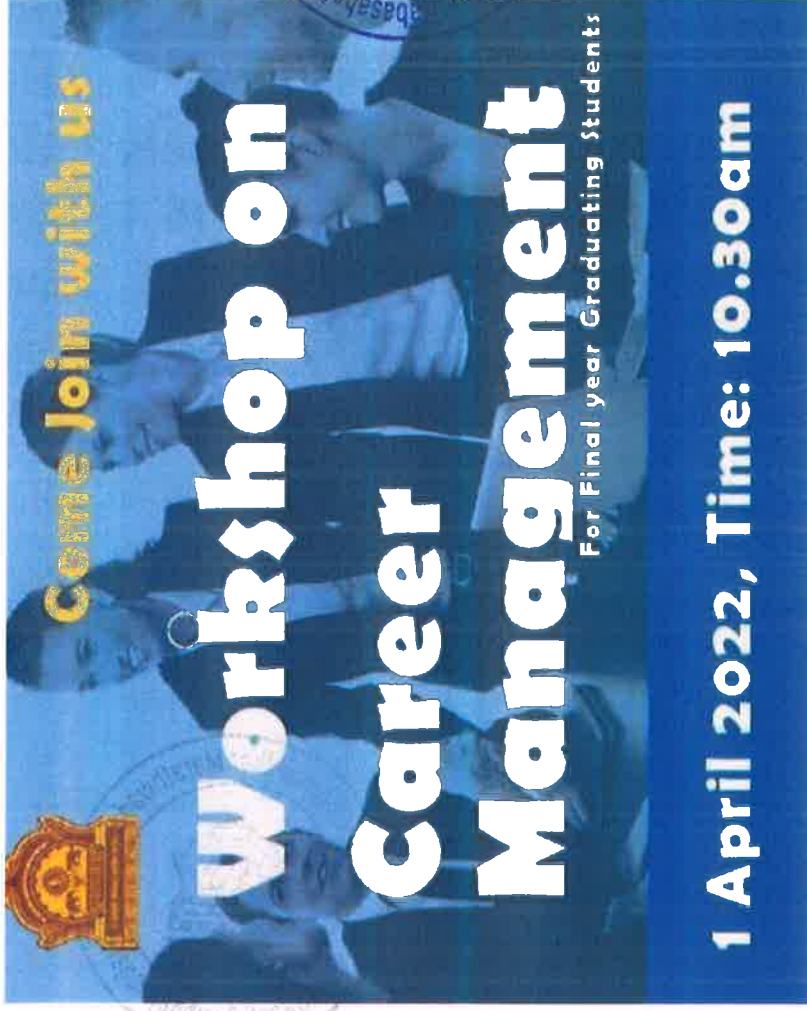

On April 1, 2022, the Department of Management Science, Sub Centre Osmanabad, under Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, hosted a crucial workshop titled 'Career Management for Graduating Students.' The workshop was designed to equip students with essential skills and insights necessary for navigating their transition from academia to professional careers. Led by esteemed resource persons Professor V. Shinde, Professor S. Bassaiye, and Professor V. Kalse, the workshop covered a wide array of topics aimed at enhancing students' career readiness. Sessions included practical guidance on resume building, interview preparation techniques, and effective job search strategies tailored to the current job market dynamics. The resource persons shared valuable insights drawn from their extensive experience in academia and industry, providing students with actionable tips and advice on career planning and goal setting. The workshop also emphasized the importance of soft skills development, professional networking, and personal branding in securing employment opportunities and building a successful career trajectory. Through interactive activities, role-playing exercises, and mock interviews, participants had the opportunity to practice and refine their skills under expert guidance. The event fostered a supportive learning environment where students actively engaged in discussions and sought personalized career advice from the resource persons. The workshop concluded with a feedback session where participants expressed appreciation for the practical insights gained and highlighted their increased confidence in pursuing their career aspirations. Overall, the Career Management workshop was instrumental in empowering graduating students with the necessary tools and knowledge to embark on their professional journeys with confidence and competence. The event exemplified the university's commitment to holistic education and preparing students for successful transitions into the workforce.

# Awareness of Trends in Technology

Regular Annual  
Activity

**Department of Microbiology  
(Osmanabad Sub Centre)  
Internal Quality Assurance Cell**

Regular NET –SET-GATE Training Activity

### **Report of the Event Prepared by IQAC in consultation with concerned Department:**

The Department of Microbiology at Sub Centre Osmanabad, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, has institutionalized a significant annual activity titled 'Guidance on SET NET GATE Examination.' This regular practice aims to provide ongoing support and thorough preparation for students aspiring to excel in the State Eligibility Test (SET), National Eligibility Test (NET), and Graduate Aptitude Test in Engineering (GATE). The department conducts these guidance sessions each academic year, reflecting a sustained commitment to enhancing students' academic and professional prospects. During these sessions, which span several weeks each year, experienced faculty members and subject matter experts provide detailed overviews of the SET, NET, and GATE examinations. The guidance includes comprehensive coverage of the exam syllabus, detailed explanations of key topics, and strategic insights into the exam patterns and marking schemes. Faculty members share valuable tips on time management, question analysis, and effective study techniques to help students approach the exams with confidence and competence. A critical component of the activity is the inclusion of regular mock tests and practice exams that simulate the actual test environment. These practice sessions enable students to familiarize themselves with the exam format, assess their preparation levels, and identify areas requiring improvement. Feedback from these sessions is provided to help students fine-tune their study plans and focus on areas where they need further development.

The department also organizes interactive Q&A sessions and one-on-one consultations where students can seek personalized guidance, clarify doubts, and receive tailored advice on their study strategies. These sessions are designed to support students in building a strong conceptual foundation and developing the critical thinking skills necessary for success in competitive exams. The 'Guidance on SET NET GATE Examination' activity has consistently attracted enthusiastic participation from students across various academic disciplines, underscoring its value and relevance. Students have praised the department's proactive approach in providing timely and effective preparation support, which has significantly contributed to their academic achievements and career aspirations. By maintaining this regular practice, the Department of Microbiology at Sub Centre Osmanabad demonstrates a steadfast commitment to academic excellence and student success. The activity not only prepares students for competitive examinations but also equips them with the skills and confidence needed to pursue higher education and professional opportunities in their respective fields. The annual guidance sessions reflect the department's dedication to fostering a supportive and nurturing academic environment that empowers students to achieve their full potential.

# Awareness of Trends in Technology

28/01-29/01  
**2022**

**Department of Political Science**  
**Internal Quality Assurance Cell**

**Remedial Lectures**

### **Report of the Event Prepared by IQAC in consultation with concerned Department:**

The Department of Political Science at Dr. Babasaheb Ambedkar Marathwada University, Aurangabad organized Remedial Lectures on January 28th-29th, 2022 to provide academic support and enhance understanding of key courses for students. The lectures were tailored to cover essential topics in Introduction to Research Methodology (RM), State Policies in India, Comparative Politics, and International Relations. The lectures covered research methodology, state policies in India, comparative politics, and international relations. The sessions focused on research design, data collection methods, sampling techniques, ethical considerations, and practical examples and case studies relevant to political science research. The lectures also explored the role of states in policy-making and governance, comparing political systems, institutions, and processes across different countries. The methodology and pedagogical approach of the lectures were expert faculty, interactive sessions, real-world examples, and feedback mechanisms. Experienced faculty members conducted the lectures, ensuring academic rigor and relevance. Students were encouraged to provide feedback on the sessions, allowing for continuous improvement and customization of future remedial programs.

The Remedial Lectures were well-received by students, providing them with a clearer understanding of complex topics in Political Science. The program helped bridge knowledge gaps, build confidence, and prepare students for academic assessments and future career endeavours in the field. In conclusion, the Department of Political Science at Dr. Babasaheb Ambedkar Marathwada University, Aurangabad successfully organized Remedial Lectures on key courses, aiming to enrich student learning experiences and foster academic excellence within the department. This report highlights the department's commitment to academic support and enhancement, ensuring comprehensive education and preparation in Political Science at the university level.

**Bridge Course**

**Report of the Event Prepared by IQAC in consultation with concerned Department:**

From September 14th to 16th, 2021, the Department of Political Science at Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, organized a Bridge Course tailored specifically for first-year students. The course was meticulously designed to acquaint them with the fundamental principles and core subjects of Political Science. Throughout the sessions, which included lectures, interactive discussions, and practical exercises, students gained insights into Political Theory, Comparative Politics, International Relations, and Public Administration. Experienced faculty members facilitated the sessions, ensuring a comprehensive understanding of each subject area while encouraging active participation and critical thinking among the students. The Bridge Course not only aimed to bridge any knowledge gaps but also aimed to cultivate a strong academic foundation and enthusiasm for Political Science studies among the newly admitted students. This initiative reflects the department's commitment to providing quality education and preparing students for a successful academic journey at the university.

# Awareness of Trends in Technology

2018/19 to  
2022/23

Department of Department of Statistics  
Internal Quality Assurance Cell

Bridge Course For First Year Students

### **Report of the Event Prepared by IQAC in consultation with concerned Department:**

The Department of Statistics at Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, has been conducting an annual Bridge Course for first-year students from 2018-19 to 2022-23 to facilitate a smooth academic transition. The course aims to equip students with a fundamental understanding of key statistical concepts and techniques, bridge the knowledge gap for students from varied educational backgrounds, enhance their analytical skills, and boost their confidence.

The Bridge Course spans one to two weeks at the start of the academic year and includes basic statistical concepts, mathematical foundation, data analysis techniques, statistical software training, interactive sessions, assessment and feedback, and feedback sessions. The course has been implemented in various years, with the inaugural course focusing on foundational topics, while the 2019-20 teaching expanded with practical data analysis skills and statistical software training.

In 2020-21, the course was conducted virtually due to the COVID-19 pandemic, expanding online resources and interactive tools. In 2021-22, a hybrid model combining online and in-person sessions was introduced, focusing on applied statistics and real-world data analysis scenarios. In 2022-23, the teaching pedagogy was reviewed and updated, including advanced topics and case studies to prepare students for the evolving field of statistics.

The impact of the Bridge Course has been significant, with significant improvements in academic performance, student engagement, skills development, and inclusivity. Students have developed crucial analytical skills and proficiency in statistical software, preparing them for advanced coursework and research. The department's commitment to academic excellence and student success is evident in the consistent feedback and positive outcomes over the years. Overall, the Bridge Course has played a crucial role in supporting students' transition into university life and fostering an inclusive learning environment.

# Awareness of Trends in Technology

26-07-2019

**Department of Tourism Administration  
Internal Quality Assurance Cell**

**Carrier Opportunities in Tourism**

### **Report of the Event Prepared by IQAC in consultation with concerned Department:**

On July 26, 2019, the Department of Tourism Administration at Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, organized an enlightening seminar titled "Career Opportunities in Tourism: Dr. BAMU Department of Tourism Administration Changing Lives." This event aimed to provide comprehensive insights into the diverse career prospects within the tourism industry and to highlight the transformative potential of a career in this dynamic field. The seminar attracted a large audience, including students, faculty members, and industry professionals, all eager to explore the opportunities that the tourism sector offers.

The seminar commenced with an opening address by the Head of the Department, who emphasized the significance of tourism as a catalyst for economic growth and social development. The keynote speaker, an esteemed industry expert, provided a detailed overview of the current trends in the tourism industry and the myriad opportunities it presents. Topics covered included traditional roles in travel agencies and hospitality, as well as emerging career paths in ecotourism, adventure tourism, and cultural tourism. The speaker underscored the industry's resilience and its capacity to adapt to changing consumer preferences and global challenges. Interactive sessions were a key feature of the seminar, allowing students to engage directly with industry professionals. Panel discussions explored topics such as sustainable tourism, the role of technology in tourism management, and strategies for enhancing tourist experiences. The panelists, who were seasoned professionals from various segments of the tourism industry, shared their personal career journeys and offered valuable advice on skill development and career advancement. A significant portion of the seminar was dedicated to discussing the educational and professional qualifications required for various roles in tourism. Experts highlighted the importance of gaining practical experience through internships and part-time jobs in tourism-related businesses. They also discussed the benefits of pursuing advanced degrees and certifications in specialized areas such as tourism management, event planning, and hospitality administration. The session provided students with a clear roadmap for achieving their career goals in the tourism sector.

In addition to formal presentations, the event featured a career expo where students could interact with representatives from leading tourism companies and educational institutions. The expo provided an excellent opportunity for students to network, learn about job openings and internships, and gain insights into the recruitment processes of major employers in the tourism industry. Participants were encouraged to explore diverse career options and to consider how their unique skills and interests could be applied in the field of tourism. The seminar concluded with a motivational speech by an alumnus of the Department of Tourism Administration who shared how their education and training at Dr. BAMU had prepared them for a successful career in tourism. They highlighted the department's commitment to providing students with a robust education that combines theoretical knowledge with practical experience, thereby equipping them with the skills necessary to thrive in a competitive and evolving industry. Overall, the "Career Opportunities in Tourism" seminar was a resounding success, offering valuable insights and practical advice to aspiring tourism professionals. It showcased the transformative impact of careers in tourism and

underscored the vital role that the Department of Tourism Administration at Dr. Babasaheb Ambedkar Marathwada University plays in preparing students for rewarding careers that not only offer personal fulfillment but also contribute to the development and enrichment of communities worldwide. The event reaffirmed the university's dedication to fostering educational excellence and career readiness among its students, ensuring that they are well-equipped to make a meaningful impact in the global tourism industry.

**NET WORKSHOP**  
(Guidance for Competitive Examination)

### **Report of the Event Prepared by IQAC in consultation with concerned Department:**

On January 25, 2022, the Department of Chemistry at the Osmanabad Sub Centre of Dr. Babasaheb Ambedkar Marathwada University, Aurangabad (Maharashtra), successfully conducted an Online NET SET Guidance Workshop to assist students and professionals in preparing for the National Eligibility Test (NET) and the State Eligibility Test (SET). The workshop was spearheaded by Dr. M. B. Muluk from the Department of Chemistry at S P M College, Nandura, who served as the chief resource person. Dr. Muluk, renowned for his expertise and extensive experience in the field, provided comprehensive guidance and strategies tailored to the needs of the participants. The virtual workshop was inaugurated by the Head of the Department of Chemistry at the Osmanabad Sub Centre, who presided over the function. In his opening address, he emphasized the critical importance of the NET and SET exams for aspiring academics and researchers, highlighting how these qualifications are crucial stepping stones for securing positions in higher education and research institutions. He lauded the efforts of Dr. M. B. Muluk in sharing his knowledge and preparing candidates for these competitive examinations, especially in a challenging online format necessitated by ongoing pandemic restrictions.

Dr. Muluk's sessions were designed to offer a thorough understanding of the NET and SET exam frameworks, including an in-depth analysis of the syllabus, exam patterns, and the types of questions typically encountered. He provided valuable insights into effective preparation strategies, emphasizing the importance of a systematic approach to studying. Dr. Muluk elaborated on the core subjects within the chemistry curriculum, explaining how to approach complex topics and common pitfalls to avoid. His presentation included detailed discussions on topics such as physical chemistry, organic chemistry, and analytical techniques, which are essential components of the exams.

Throughout the workshop, Dr. Muluk stressed the significance of time management, regular practice, and staying updated with the latest scientific developments. He introduced participants to a variety of online resources and study materials, including e-books, research journals, and practice tests, which can significantly enhance their preparation efforts. The interactive nature of the workshop allowed participants to engage in real-time discussions, ask questions, and seek clarifications on challenging concepts. Dr. Muluk's approachable demeanor and clear explanations were highly appreciated by the attendees.

The workshop concluded with a question-and-answer session, where participants had the opportunity to address their specific concerns and receive personalized advice from Dr. Muluk. The Head of the Department provided a closing address, thanking Dr. Muluk for his invaluable contributions and expressing gratitude for the active participation of all attendees. Feedback from the participants indicated that they found the workshop extremely beneficial, noting the practical guidance provided and the confidence gained in tackling the NET and SET exams.

Overall, the Online NET SET Guidance Workshop was a resounding success, underscoring the commitment of Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, and its Osmanabad Sub Centre to supporting the academic and professional development of their students and faculty, even in the face of the challenges posed by the pandemic. The workshop not only equipped the participants with the necessary tools and knowledge for their exam preparation but also motivated them to pursue their academic goals with determination and confidence.

Dr. Babasaheb Ambedkar  
Marathwada University,

**:Important Notice:**

We are organizing a guest lecture on NET/SET/GATE preparation.

Topic : NET, SET, GATE preparation in chemical sciences

Eminent Speaker: Dr. Mahesh B. Muluk (NET-JRF, GATE, Ph. D.)

Assistant Professor,

S. P. M. College, Nandura Dist. Buldana.

Date and Time: 25th January, 2022, 6:00 pm

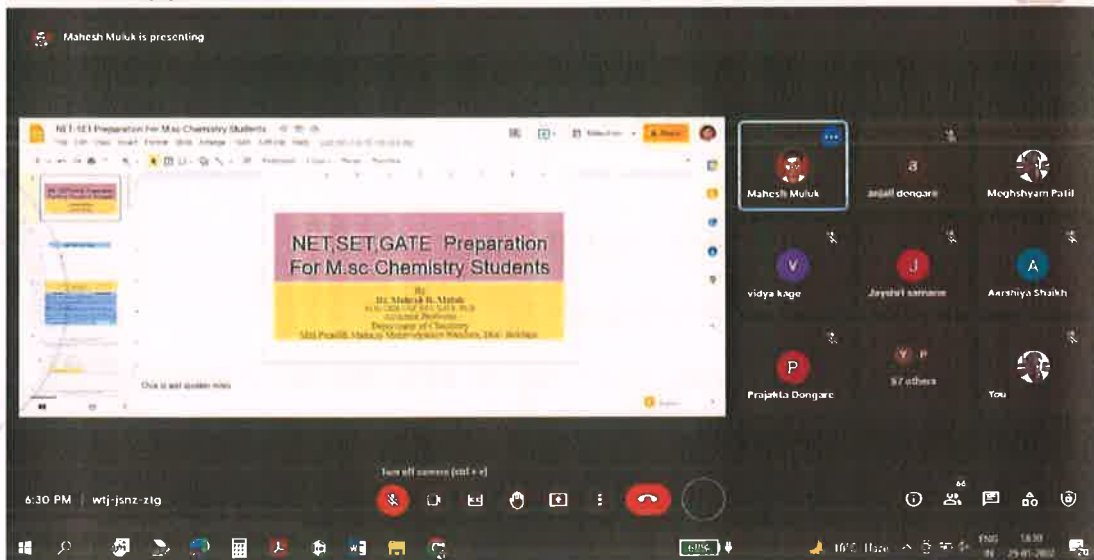

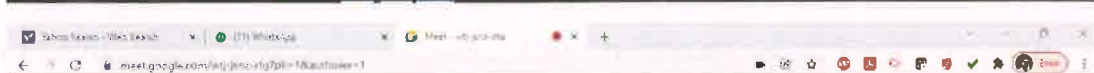

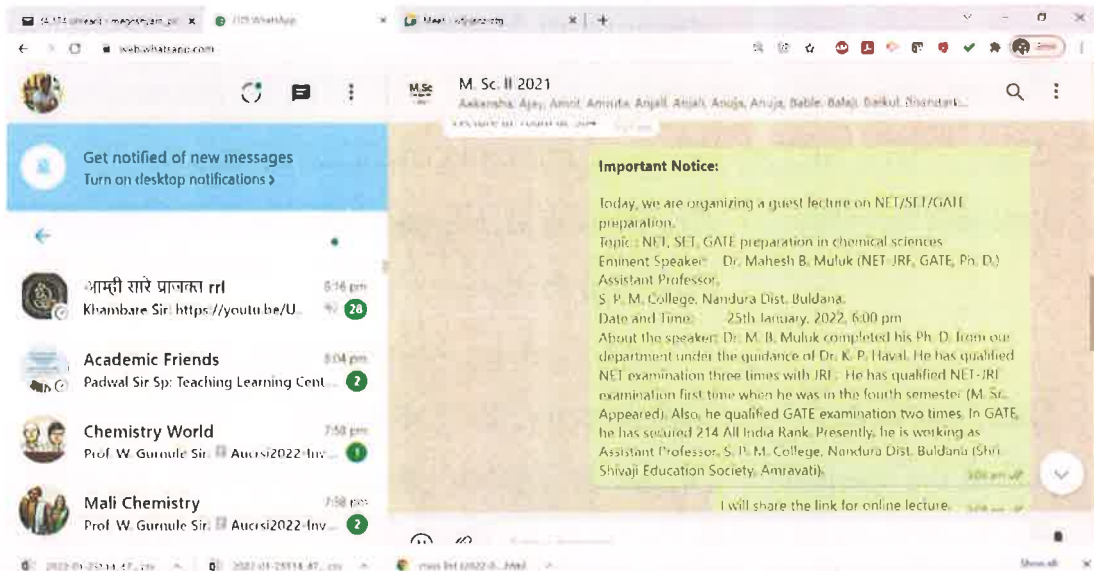

About the speaker: Dr. M. B. Muluk completed his Ph. D. from our department under the guidance of Dr. K. P. Haval. He has qualified NET examination three times with JRF. He has qualified NET-JRF examination first time when he was in the fourth semester (M. Sc. Appeared). Also, he qualified GATE examination two times. In GATE, he has secured 214 All India Rank. Presently, he is working as Assistant Professor, S. P. M. College, Nandura Dist. Buldana (Shri. Shivaji Education Society, Amravati).

### SET ( State Eligibility Test ) , Scheme of Examination

The SET will be conducted in Objective Mode. The test will consist of two papers. Both the papers will consist of only objective type questions and will be held on the day of Examination in two separate sessions without break as under:

Session	Paper	Number of Multiple Choice Questions	Marks	Duration
First	I	50 questions all of which are compulsory	50 x 2 = 100	1 hour (10.00 a.m. to 11.00 a.m.)
Second	II	100 questions all of which are compulsory	100 x 2 = 200	2 hours (11.30 a.m. to 01.30 p.m.)

No. Negative Marking system

### CSIR-UGC (NET) EXAM FOR AWARD OF JUNIOR RESEARCH FELLOWSHIP AND ELIGIBILITY FOR LECTURESHIP

#### CHEMICAL SCIENCES

#### REVISED EXAM SCHEME

FROM JUNE, 2017 CSIR-UGC NET EXAM & ONWARD

**TIME: 3 HOURS** **MAXIMUM MARKS: 200**

CSIR-UGC (NET) Exam for Award of Junior Research Fellowship and Eligibility for Lectureship shall be a Single Paper Test having Multiple Choice Questions (MCQs). The question paper is divided in three parts.

**Part 'A'** - This part shall carry 20 questions pertaining to General Science, Quantitative Reasoning & Analysis and Research Aptitude. The candidates shall be required to answer any 15 questions. Each question shall be of two marks. The total marks allocated to this section shall be 30 out of 200.

**Part 'B'** - This part shall contain 40 Multiple Choice Questions (MCQs) generally covering the topics given in the syllabus. A candidate shall be required to answer any 25 questions. Each question shall be of two marks. The total marks allocated to this section shall be 50 out of 200.

**Part 'C'** - This part shall contain 40 questions that are designed to test a candidate's knowledge of scientific concepts and/or application of the scientific concepts. The questions shall be of analytical nature where a candidate is expected to apply the scientific knowledge to arrive at the solution to the given scientific problem. A candidate shall be required to answer any 25 questions. Each question shall be of four marks. The total marks allocated to this section shall be 100 out of 200.

# Awareness of Trends in Technology

16-11  
2022

**Department of Lifelong Learning and Extension  
Internal Quality Assurance Cell**

**Orientation programme for the college student volunteers**

## Orientation programme for the college student volunteers (16/11/2022)

Department organized one day training programme for the college student volunteers on 16/11/2022. Prof. Ramchandra Pawar, Director, Dept. of Lifelong Learning & Extension, Shivaji University, Kolhapur was present on the occasion. Dr. Moon presided over the function.

### **Prof. Ramchandra Pawar delivered a lecture on 'The Role of the Extension Education in New Education Policy'.**

Subsequent to this Dr. Pawar delivered a lecture on 'The Role of the Extension Education in New Education Policy'. He said that there is a drastic change in new education policy. Paperless administration is the main aim of modernization, Objectives of the education is not only earning the money but also achieving the moral values and skills. Literacy is the backbone of each and every nation. GDP is depending upon the literacy. Our GDP is less than the Bangladesh. Lifelong Learning is related to the volunteerism, community development and mobilization. For this achievement, political will, proper planning, organizational structure and adequate financial support is essential.

He explained the following basic objectives of the Lifelong Learning department.

- 1) Achievement of foundational literacy and numeracy
- 2) Acquisition of critical life skills, financial Literacy, commercial skills, health care and awareness, child care and educating them with family welfare.
- 3) Foundation of basic education (preparatory, middle and secondary stage equivalency)
- 4) Implementation of continuing education (Expecting holistic adult education courses in Arts, science, technology, culture, sports recreation etc.

Dr. Sanjay Moon delivered the presidential address.

This programme was anchored by Dr. Anand wagh and he also proposed vote of thanks.

## 1) Participation of Dr. Anand Wagh in various activities

- 1) Dr. Wagh worked presiding officer for the senate election on 26/11/2022 in first phase.
- 2) He participated in one day authors workshop on 30/11/2022. The workshop was organized by Springer nature and knowledge resource Centre, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad He worked as a presiding officer in the second part of the senate election on 10/12/2022.
- 3) He attended one day National e-conference on "Challenges and opportunities of National education policy 2020 before higher education". The conference was organized by Principal Kalikadevi Arts,, Com. & Sci. college, Shirurkasar on 3/1/2023.
- 4) He visited to the following colleges and attended the programmes of students counseling and career guidance.

**SET NET WORKSHOP**  
(Guidance for Competitive Examination)

### **Report of the Event Prepared by IQAC in consultation with concerned Department:**

On June 15, 2018, the Department of Chemistry at Dr. Babasaheb Ambedkar Marathwada University in Aurangabad, Maharashtra, organized a comprehensive NET SET Guidance Workshop aimed at equipping aspiring candidates with the necessary skills and knowledge to excel in the National Eligibility Test (NET) and State Eligibility Test (SET). The workshop was graced by Dr. G. S. Rashinkar from the University of Kolhapur, who served as the chief resource person. Dr. Rashinkar brought a wealth of experience and expertise to the event, providing participants with critical insights into the examination patterns, key content areas, and effective study techniques required for these competitive exams.

The workshop was inaugurated by the Head of the Department of Chemistry at Dr. Babasaheb Ambedkar Marathwada University, who presided over the function and highlighted the significance of such educational initiatives. In his opening remarks, he emphasized the pivotal role that these examinations play in shaping academic and professional careers and encouraged participants to make the most of the opportunity to learn from a distinguished expert like Dr. Rashinkar. The event saw a diverse group of attendees, including postgraduate students, research scholars, and faculty members, all eager to enhance their understanding and preparation for the NET and SET exams.

Dr. Rashinkar's sessions were meticulously structured to cover various aspects of the NET and SET exams. He began with an overview of the exam formats, eligibility criteria, and the importance of these qualifications in academia. He then delved into subject-specific strategies, focusing on how to approach different sections of the exams, including multiple-choice questions, comprehension passages, and subject-specific essays. Throughout the workshop, Dr. Rashinkar emphasized the importance of time management, regular practice, and staying updated with the latest developments in the respective fields of study.

Interactive sessions were a key feature of the workshop, allowing participants to engage directly with Dr. Rashinkar and clarify their doubts. He provided practical tips on how to identify and focus on high-yield topics, utilize online resources effectively, and balance their study schedules with other commitments. The participants appreciated the depth of knowledge and the practical advice offered, which not only boosted their confidence but also provided a clear roadmap for their exam preparation.

The workshop concluded with a vote of thanks from the Head of the Department, who acknowledged the efforts of Dr. Rashinkar and expressed gratitude for his invaluable contribution. Feedback from the participants was overwhelmingly positive, with many noting the clarity and relevance of the information provided and the motivation they gained to pursue their academic goals with renewed vigour. The successful organization of the NET SET Guidance Workshop underscored the commitment of Dr. Babasaheb Ambedkar Marathwada University to fostering educational excellence and supporting the academic aspirations of its students and faculty.

**Two Days' Digital Tools Workshop**

**Report of the Event Prepared by IQAC in consultation with concerned Department:**

On May 12-13, 2022, the Department of Management Science at Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, organized a comprehensive two-day capacity building workshop on digital tools titled "Digital Tools Workshop," featuring insightful talks by Mr. Y. Udgire, the Director of M/s Surekh Services Pvt. Ltd. The workshop attracted enthusiastic participation from both students and faculty members who were eager to enhance their proficiency in using modern digital tools crucial for business management and academic research. Over the two days, Mr. Udgire provided hands-on training and demonstrations on various essential digital tools that are transforming the landscape of management and education. The workshop covered a range of topics, including data analysis software, project management tools, and online collaboration platforms, emphasizing their practical applications in both academic and professional settings. Participants learned how to leverage these tools to improve efficiency, enhance productivity, and streamline workflows. Mr. Udgire's engaging delivery and expertise in digital technology ensured that the sessions were both informative and interactive, with attendees actively participating in discussions and practical exercises. The workshop concluded with a Q&A session where participants clarified their doubts and explored additional ways to integrate digital tools into their daily activities. The event was highly beneficial, equipping students and faculty with valuable skills that are increasingly critical in the digital age, and underscored the university's commitment to fostering technological competence and innovation in its academic community.

**Online Panel Discussion on Budget 2022**

### **Report of the Event Prepared by IQAC in consultation with concerned Department:**

On February 9, 2022, the Department of Management Science at Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, hosted an insightful online panel discussion on the topic "Budget - 2022," featuring esteemed panelists Dr. Dhanshri Mahajan from the Department of Economics at Dr. Babasaheb Ambedkar Marathwada University, along with CS Samruddhi Lumawat and CS Komal Mutha, both distinguished chartered secretaries. The event saw active participation from students and faculty members who were keen to understand the implications of the newly announced budget. Dr. Mahajan provided a detailed analysis of the budget's economic impact, focusing on key sectors such as agriculture, infrastructure, and education, and explaining how various budget allocations and policies could influence economic growth and development. CS Samruddhi Lumawat elaborated on the regulatory and compliance aspects of the budget, highlighting new policies affecting corporate governance, financial reporting, and tax compliance. CS Komal Mutha discussed the practical implications for businesses and individuals, shedding light on new tax provisions, incentives for startups, and changes in the financial regulations that could affect day-to-day business operations and personal financial planning. The discussion was rich in content and facilitated a deep understanding of the budget's nuances, policy shifts, and their expected outcomes. Participants engaged actively during the Q&A session, posing questions about the potential long-term effects of the budget on the economy and seeking advice on navigating the new financial landscape. The panelists' diverse perspectives and in-depth knowledge provided a comprehensive overview of the budget's significance, making the discussion both enlightening and relevant for all attendees. This event highlighted the department's commitment to providing up-to-date, practical insights into significant economic policies, fostering a well-informed academic community.
