

Prof. Zambre delivered an inaugural speech. He said that our country is identified as a youth country. 30% old people are living in our country and till the 2022 the percentage of the youths may be 50%. Youths are the builders of the nation. Their power must be used for the development of the country. Development of the social awareness is essential for the social change. There is not the expected social change after the freedom. The temperature of the earth has increased by 20c. Increasing temperature is an obstacle is natural process. Day by day the population is increasing. Now the population of the world is 720 crore. Before 200 years the world population was 2 crore. Our life span has also increased but it is less than Japan. There are 15% youths and 50% old people in the Japan. Japanes people are honeset, sincere, devoted and dedicated to their work and country. We must follow them. Hard work is the key of success.
