22<sup>nd</sup> February 2016

To Whom It May Concern

I would be delighted to invite Professor Mahendra D. Shirsat from the Department of Physics, Dr. Babasaheb Ambedkar Marathwada University, India to visit Department of Materials Science and Engineering, National Taiwan University of Science and Technology, Taiwan and to give two lectures related on advanced materials for sensors between the 9<sup>th</sup> and 14<sup>th</sup> of May, 2016. I would anticipate that the visit will lead to a joint research as the work Professor Mahendra D. Shirsat has expertise that complements my groups work very well. His experience of preparation and characterization of sensory materials has led to many papers in the past and we hope to capitalize on this during his visit. We hope that during the visit, we are able to formulate some new ideas for research which will lead to a long term partnership.

Yours sincerely

Associate Professor Chin-Yang Yu
