Hon'ble Sir, we are glad to inform you that since its inception, MAEER's MIT World Peace University (www.mitwpu@edu.in), Pune, India is engaged in promoting the noble cause of establishing a culture of peace in the world through value based universal education system with an appropriate understanding of the role of scientific and spiritual component of life to develop a holistic peace-loving global society. Our motto aligns itself to UNESCO's objectives.

Keeping this ideal in mind, we are organizing a World Parliament of Science, Religion and Philosophy on the very historic and auspicious occasion of the public dedication of ceremony of Philosopher Saint Shri Dnyaneshwara World Peace Prayer Hall and World Peace Library, a magnificent architectural marvel having the world's largest dome, which blends Science, Religion and Philosophy for the well-being of mankind.

We are glad to put it on record that MIT World Peace University, Pune, India firmly believes in the saying of the 13th Century Indian Philosopher Saint Shri Dnyaneshwara that, "the entire universe is a manifestation of pure consciousness." World Peace University further identifies itself with the assertion made by the visionary scientist of 20th Century Albert Einstein that, "I believe in God, who

reveals himself in the orderly harmony of the universe and I further believe that intelligence is manifested throughout Mother Nature", which amply clarifies the very essence and philosophy behind Science, Religion / Spirituality and Philosophy

This most revealing and beautiful monument is named after one of the greatest philosopher saints of the world, Saint Shree Dnyaneshwara, an embodiment of knowledge divine & peace, who in a short life span of only 21 years, defined the essence of harmonizing science with spirituality for world peace.
