

Date: 14/03/2018

To,
The Head,
Department of P.G.Studies in Law,
Dr.Babasaheb Ambedkar Marathwada University, Aurangabad.

Subject : For jointly organizing the programme/function of "World Rights to Water Day," 20th March 2018.

Hon'ble sir,

Water is essential for existence and survival of individual human being and human society at large. Having equitable access to water is inalienable universal human right. Therefore, Dr. Babasaheb Ambedkar had begun his movement for social justice by 'Mahad Chavdar Lake Satyagraha dated 20th March 1927. Also the UNO has put the obligation on all of it's member states to ensure right to have equitable access to water for respective citizenry till the year 2030. In the context , there is need for taking effective measures for recognizing and implementing right to water for every person in India. In this backdrop to have appropriate and suitable legislation will be the step forward. Hence from last couple of years our organization had started observing and promoting to declare 20th March (the day on which Dr. Ambedkar organized Mahad Chavdar Lake Satyagraha' in the year 1927) as a "World Right to Water Day". Furthermore, our organization started campaigning for special legislation providing equitable right to water. In pursuance of this campaigning this year our Foundation has decided to organize a programme/function on 20th March at Institute of Engineers, Osmanpura Aurangabad. We are very much interested to organize this programme in collaboration with your esteemed institution. Further we request you to participate in this programme along with wholehearted involvement of your faculties and students.

About Organization:

The Eco Needs Foundation is Aurangabad based NGO, working for conservation of environment & Eco Revolution movement. More than 20,000 youth members, expertise from different fields are carrying forward our movement. We have undertaken the major activities like; India's First smart village Dhanora project, "Aurangabad Jalstrot Bachao Abhiyan," "Pani Aur Desh Bachao Abhiyan", "Road Banav Par Ped lagao Abhiyan", "Nagasenvan Van Banao Abhiyan", "Thane Lake Protection Abhiyan", "Eco village", and River conservation programmes as Mithi River(Mumbai), Godawari River, Kham River & Sukhna River (Aurangabad) etc. **The foundation has received the Water Digest Water Awards 2010-2011 supported by UNSECO.** Foundation had successfully organized International conferences in various countries as like, India in the year 2011, Sri Lanka in the year 2012, Nepal in the year 2013 with the collaboration of the Environment Ministry of respective countries. The Eco Needs Foundation is the lifetime partner of the Global Water Partnership, Sweden & Also of the Indian water Partnership. The foundation had developed world'S first Environmental social networking site Eco Face. The foundation also publishes International journal named & styled as "International journal for Technology, Science & Humanity "Eco Revolution" ISSN: 2632-1508 from Nepal.

Hence, kindly oblige us with valuable collaboration of your esteemed institution for jointly organizing the programme/function of "World Rights to Water Day," 20th March 2018.
