12. JOURNEY OF E-BOOKS TOWARDS KINDLE FIRE HD

Dr. Dharmraj Veer

Mr. Chaitanya Veer

Abstract:

Today is the age of Information Technology (IT). In the age of IT reading trend is also changing day by day. Now young generation is handling various IT tools and techniques such as social media i.e. linkedin, Flickr, MySpace, facebook, twitter, as well as personal devices for example i-pad, tablet, smart phone and ebook reader like kindle, nook, etc. therefore author has emphasised on such ebook reader which will be useful to all academic community. Present paper has focused on ebooks types, formats and ebook reader specifications like Kindle Fire HD.

1. INTRODUCTION-

21st Century of Information Communication Technology is going on with new innovative gadget and devices. Every day new technological products are produced around the Globe. Now day producer produces research report in electronic format (in open access environment), which will be accessible on the web. Therefore impact of e-resources is of huge amount on Knowledge Resource Center. Number of new devices came in market for accessibility of resources i.e. e-books, journals and many type of documents. Technology changes tremendously like new devices come for reading of e-resources. According ("E-book," 2015) Electronic books term coined by Andries Van Dam of Brown University during the 1960's. First person, Michael Hart typed "the US Declaration of Independence" into a computer and launched Project Gutenberg to create electronic copies of more books in 1971. This project is the initial starting about e-books movement. Now, Gutenberg Project which provides 46,000+ free eBooks. Afterwards lot of projects
